Based on the survey results, the following table shows the results of a survey conducted by the National Accounting Society. The survey asked accountants to rate the quality of their work on a scale of 1 to 5, with 1 being the lowest and 5 being the highest. The results are shown in the table below.

a) The survey results show that accountants in the North and South regions have the highest quality of work, while accountants in the West and East regions have the lowest quality of work. This is likely due to the fact that the North and South regions have a higher concentration of accountants, which may lead to a higher quality of work.

b) The survey results show that accountants in the North and South regions have the highest quality of work, while accountants in the West and East regions have the lowest quality of work. This is likely due to the fact that the North and South regions have a higher concentration of accountants, which may lead to a higher quality of work.

c) The survey results show that accountants in the North and South regions have the highest quality of work, while accountants in the West and East regions have the lowest quality of work.
