Mona Baker In Other Words Chapter Seven:

In Other Words Mona Baker, 2011-01-25 *In Other Words* is the definitive coursebook for anyone studying translation. Assuming no knowledge of foreign languages, it offers both a practical and theoretical guide to translation studies and provides an important foundation for training professional translators. Drawing on modern linguistic theory, this best-selling text provides a solid base to inform and guide the many key decisions trainee translators have to make. Each chapter offers an explanation of key concepts, identifies potential sources of translation difficulties related to those concepts, and illustrates various strategies for resolving these difficulties. Authentic examples of translated texts from a wide variety of languages are examined, and practical exercises and further reading are included at the end of each chapter. The second edition has been fully revised to reflect recent developments in the field, and new features include a new chapter that addresses issues of ethics and ideology in response to increased pressures on translators and interpreters to demonstrate accountability and awareness of the social impact of their decisions. Examples and exercises from new genres such as audiovisual translation, scientific translation, oral interpreting, website translation, and news media translation. New project-driven exercises designed to support MA dissertation work. Updated references and further reading. A companion website featuring further examples and tasks. Written by Mona Baker, a leading international figure in the field, this key text is the essential coursebook for any student of translation studies.

Translation and Violent Conflict Moira Inghilleri, Sue-Ann Harding, 2010-01-30 First Published in 2010. Translators and interpreters are frequently found at the centre of attempts to wage war or negotiate peace between opposing factions. Translation and interpreting also serve a vital function in communicating a conflict locally and globally as interested parties attempt to legitimize their actions, appeal for assistance, and enlist support for their cause and the condemnation of their stated enemy. The unavoidable independent exercises of judgement that interpreters and translators make through their participation in or re-narration of a conflict and the decisions that go with them provide clear and strong evidence for the lead role in the construction of meanings and identities that interpreters and translators assume in situations of conflict, irrespective of their historical or geopolitical setting. This special issue of *The Translator* explores the role of translators and interpreters in a number of conflicts from the 20th century to the present. Drawing on fictional and non-fictional texts, legal and peacekeeping settings, and reports from war zones, contributors to this volume explore the overlapping themes of mediation, agency, and ethics in relation to translators and interpreters as they negotiate the political, social, cultural, linguistic, and ethical factors that converge often dangerously in situations of armed conflict.

The 1840 translation of the Gospel of Luke as a technology of power Itumeleng D. Mothoagae , 2024-07-26 In this book the author aims to explore the impact of 19th century translations of the Bible into indigenous languages with a specific focus on the Setswana translation The translations have had a profound effect on the religio cultural practices of the indigenous people leading to erosion and alteration of their traditions and identities I argue that it is crucial to consider the translator s intentions and the associated literature such as journals and letters to understand the translation process comprehensively The Setswana Bible was the first to be translated in Africa and tracing the intentions of Robert Moffat the first translator is imperative to understanding the impact of the translation on the receptor culture The methodology adopted is interdisciplinary drawing from linguistics African languages history English literature cultural studies black studies and theology I analyse the impact of the 1840

Gospel of Luke in the context of Setswana culture in South Africa and my findings demonstrate that translations cannot be distinct from the translator To gain a deep understanding of the implications of such texts I adopt a methodology that analyses significant historical literature and primary sources including the records and works of The British and Foreign Bible Society The History of the London Missionary Society and the journals letters and writings of missionaries such as Robert Moffat and John Campbell

New Perspectives on Delarivier Manley and Eighteenth Century Literature Aleksandra Hultquist, Elizabeth Mathews, 2016-07-01 This first critical collection on Delarivier Manley revisits the most

heated discussions adds new perspectives in light of growing awareness of Manley's multifaceted contributions to eighteenth century literature and demonstrates the wide range of thinking about her literary production and significance. While contributors reconsider some well known texts through her generic intertextuality or unresolved political moments, the volume focuses more on those works that have had less attention: dramas, correspondence, journalistic endeavors, and late prose fiction. The methodological approaches incorporate traditional investigations of Manley, such as historical research, gender theory, and comparative close readings, as well as some recently influential theories like geocriticism and affect studies. This book forges new paths in the many underdeveloped directions in Manley scholarship, including her work's exploration of foreign locales, the power dynamics between individuals and in relation to states, sexuality beyond heteronormativity, and the shifting operations and influences of genre. While it draws on previous writing about Manley's engagement with Whig/Tory politics, gender, and queerness, it also argues for Manley's contributions as a writer with wide ranging knowledge of both the inner sanctums of London and the outer developing British Empire, an astute reader of politics, a sophisticated explorer of emotional and gender dynamics, and a flexible and clever stylist. In contrast to the many ways Manley has been too easily dismissed, this collection carefully considers many points of view and opens the way for new analyses of Manley's life, work, and vital contributions to the full range of forms in which she wrote.

Re-Reading Harry Potter Suman Gupta, 2009-06-25. This is the first extended text-based analysis of the social and political implications of the Harry Potter phenomenon. Arguments are primarily based on close readings of the first four Harry Potter books and the first two films. In other words, a text-to-world method is followed. This study does not assume that the phenomenon concerns children alone or should be lightly dismissed as a matter of pure entertainment. The amount of money, media coverage, and ideological unease involved indicates otherwise. The first part provides a survey of responses both of general readers and critics to the Harry Potter books. Some of the methodological decisions underlying this study itself are also explained here. The second part examines the presentation of certain themes, including gender, race, and desire, in the Harry Potter books, with a view to understanding how these may impinge on social and political concerns of our world.
