

REFRIGERATORS 101

How to find the right one

WRITTEN BY Amanda Lecky and Stephanie Sisco

STYLE	PRICE	PROS	CONS
 TOP FREEZER	PRICE RANGE: Typically \$400 to \$2,000. The classic single-door fridge with freezer above.	PROS: It's the most affordable style and comes in narrow, compact options (starting at around 28 inches wide) for smaller spaces. With most, you can swap the side the door hangs from to make the unit work well for your space—a big plus in a tight kitchen.	CONS: From a design standpoint, it's fairly plain. And it generally doesn't offer extras like an in-door water and ice dispenser. You'll need to bend to get to some of your fridge food.
 BOTTOM FREEZER	PRICE RANGE: Typically \$700 to \$3,500. An increasingly popular model, with deep storage below for frozen food.	PROS: Roomy and wide, it keeps fresh food at eye level—and there's no bending required to access the fridge. Thanks to versatile interior options, you can often customize (even the inside of the door) for maximum efficiency.	CONS: You'll have to bend to reach frozen foods, and some people find the drawer-style freezer tough to organize. Also, as with top-freezer styles, there's typically no water dispenser.
 FRENCH DOOR	PRICE RANGE: Typically \$1,200 to \$4,000. The bottom-freezer fridge, but with two narrow doors instead of one wide one.	PROS: This style has all the perks of the bottom-freezer model (left), with the option for a much larger unit. With two-door access, you can reach inside without exposing all the food to warm air. Narrow doors might work better for your particular room flow. Most models also offer adjustable shelves.	CONS: Can be clunky to use—you have to open both doors to stash a big casserole, for example. And, of course, you'll need to bend to open the freezer drawer.
 SIDE BY SIDE	PRICE RANGE: Typically \$900 to \$4,000. The vertical compartments offer plenty of shelving for ultimate organization on both sides.	PROS: Great for a kitchen with limited clearance—the doors are about half as wide as those of standard top-freezer models. The vertical freezer allows you to see contents at a glance (without digging), and shelves set you up to stay organized (versus the potential pit of a drawer).	CONS: Compartments are narrow (about 14 to 23 inches wide), which may mean you can't fit larger items, like party platters. Deep-knee bending is needed to access the lower shelves and drawers on both sides.
 BUILT-IN	PRICE RANGE: \$5,000 and (way) up. Made to sit flush with cabinets for a streamlined look—a designer favorite.	PROS: Your kitchen will be extra sleek. With most built-in models, you can add panels in the same material as your cabinets for a seamless effect.	CONS: Built-ins are about six inches shallower than typical freestanding fridges, so you trade a lot of interior storage space for the visual impact.

Fridge Consumer Comparison Guide
