

End of School Letter to Students

I'm glad I was your teacher,
I've come to love you so.
I can't believe the end is here,
I hate to see you go.
Remember all the fun we had
in all the things we did.
But most of all, remember...
You're a VERY special kid!

The Bloomsbury Handbook of Early Childhood Transitions Research Aline-Wendy Dunlop, Sally Peters, Sharon Lynn Kagan, 2024-09-19 Research into early childhood transitions has become a field in its own right. It is increasingly understood that a positive start in any new setting can influence the child's engagement, sense of belonging, well-being, progression in learning and agency, and may be dependent on the insight of educators and families. And yet, there is no research methodology or research methods book dedicated to this growing field of study. Including 27 chapters written by researchers from the UK, New Zealand, the USA, Sweden, Iceland, Australia, and Canada, this handbook presents an overview of the field, exploring its current debates, reflects on its history, and offers suggestions for the future of the field. This book is an essential reference point for anyone studying or undertaking research into transitions in early childhood.

Child Art Therapy Judith Aron Rubin, 2011-03-08 An innovative guide to the practice of art therapy. Since 1978, Judith Aron Rubin's *Child Art Therapy* has become the classic text for conducting art therapy with children. Twenty-five years later, the book still stands as the reference for mental health professionals who incorporate art into their practice. Now, with the publication of this fully updated and revised Twenty-Fifth Anniversary Edition, which includes a DVD that illustrates art therapy techniques in actual therapy settings, this pioneering guide is available to train, inform, and inspire a new generation of art therapists and those seeking to introduce art therapy into their clinical practice. The text illustrates how to set the conditions for creative growth, assess progress, and set goals for therapy. Use art in individual, group, and family situations, including parent-child pairings, mothers' groups, and adolescent groups. Work with healthy children and those with disabilities. Guide parents through art and play. Talk about art work and encourage art production. Decode nonverbal messages contained in art and the art-making process. Use scribbles, drawings, stories, poems, masks, and other methods to facilitate expression. Understand why and how art therapy works. Along with the useful techniques and activities described, numerous case studies taken from Rubin's years of practice add a vital dimension to the text, exploring how art therapy works in the real world of children's experience. Original artwork from clients and the author illuminate the material throughout. Written by an internationally recognized art therapist, *Child Art Therapy*, Twenty-Fifth Anniversary Edition is a comprehensive guide for learning about practicing and refining child art therapy.
