*Markets and People* World Bank, 2020-02-10 Romania's income per capita has increased from 26 percent of the EU 28 average in 2000 to 63 percent in 2017 but this economic success rests on the wobbly foundations of unfavorable demographics weak human capital and ineffective institutions Going forward stronger competition and better human capital are critical to increasing the economy's growth potential Romanian manufacturing firms are exposed to domestic and international competition ensuring the flow of resources and market shares to more efficient players This has not been the case for services where anticompetitive regulations and direct state control often limit efficiency gains Romanian state owned enterprises do not compete on an equal footing with private sector firms distorting market outcomes and hampering the efficient allocation of resources Removal of these restrictions would have a significant positive impact on GDP growth Competitively neutral policies are needed to ensure that all enterprises public or private domestic or foreign face the same set of rules Romania's human capital accumulation proxied by the World Bank's Human Capital Index HCI is the lowest in the European Union and varies widely across counties Disparities in education outcomes remain relevant across and within regions of Romania Learning gaps in primary and secondary education persist These can be seen clearly between urban and rural areas across regions and across social groups requiring changes both at the systems level and at the learning center level In the labor market the automation of production processes has started driving demand for higher

levels of cognitive skills while jobs involving the routine application of procedural knowledge are shrinking in number A paradigm shift would require reforms in primary and secondary schooling in addition to more targeted actions to establish an effective skills development system to bolster human capital      *The American Kings* Robert Kimball Shinkoskey,2014-03-04

An inevitable feature of democratic governments is the tendency of their chief executives to pursue domestic policies and foreign wars without the consent of the people America s own presidents have studiously ignored Congress and the states and have begun to act like all powerful kings U S presidents make wild promises to get elected use temporary crises to expand personal power publish propaganda to divert attention away from their actions pass out benefits to favored sections of the population in order to get re elected and suppress segments of the population who disagree with them This book chronicles the story of America s lapse into tyranny at the hands of some of its best known presidents      **Forthcoming Books** Rose Arny,1997      *Books in Print Supplement* ,2002      **The Compact Edition of the Oxford English Dictionary** Sir James Augustus Henry Murray,1971 Micrographic reproduction of the 13 volume Oxford English dictionary published in 1933      Ohio New Learning Standards in Grade 4 Mathematics American Book Company,2014
