The High School Teacher, 1925 **Authentic Educating** Robert Leahy, 2009-08-24 In *Authentic Educating* Leahy describes teaching methods that can be used in every discipline and strategies that work in classrooms from elementary to graduate school. Authentic educating integrates several philosophic perspectives to yield theory and practice that encourages high levels of teaching and learning in elementary through graduate school. Authentic educating helps students to understand concepts from mathematics to chemistry to music and language arts in ways that engage them cognitively and emotionally. Authentic educative events are project oriented and include personal and academic products. Projects entail students doing and making things guided by powerful learning tools. Personal products include reaction papers, personal journals, concept maps, performing plays, and constructing Vee diagrams. Academic products include essays, term papers, field journals, exams, concept maps to summarize novels and articles, panel presentations and discussions, and Vees. The aim of this book is to create authentic relationships that resonate within the principles of democracy upon which this country was founded. Readers can gain a deeper understanding of the teaching methods described in this book by viewing the video samples featured on the Authentic Educating website www.authenticeducating.com. *Learning readiness* Prem Lata Sharma, 2006 Exploring EFL Fluency in Asia T. Muller, J. Adamson, P. Brown, S. Herder, 2014-10-04 In EFL contexts an absence of chances to develop fluency in the language classroom can lead to marked limitations in English proficiency. This volume explores fluency development from a number of different perspectives investigating measurements and classroom strategies for promoting its development. *Resources in Education*, 1998 **Dissertation Abstracts**, 1962-04 Abstracts of dissertations and monographs in microform **Students' Understanding of Research Methodology in the Context of Dynamics of Scientific Progress** Mansoor Niaz, Mayra Rivas, 2016-04-20 This book discusses how to improve high school students' understanding of research methodology based on alternative interpretations of data, role of controversies, creativity, and the scientific method in the context of the oil drop experiment. These aspects form an important part of the nature of science NOS. The study reported in this volume is based on a reflective, explicit, and activity-based approach to teaching nature of science NOS that can facilitate high school students' understanding of how scientists elaborate theoretical frameworks, design experiments, report data that leads to controversies, and finally, with the collaboration of the scientific community, a consensus is reached. Most students changed their perspective and drew concept maps in which they emphasized the creative, accumulative, controversial nature of science and the scientific method. *Case-Based Reasoning Research and Development* David B. Leake, Enric Plaza, 1997-07-09 This book constitutes the refereed proceedings of the Second International Conference on Case-Based Reasoning ICCBR 97 held in Providence, RI, USA, in July 1997. The volume presents 39 revised full scientific papers selected from a total of 102 submissions; also included are 20 revised application papers. Among the topics covered are representation and formalization, indexing and retrieval, adaptation, learning, integrated approaches, creative

reasoning CBR and uncertainty This collection of papers is a comprehensive documentation of the state of the art in CBR research and development **Research in Education** ,1974 Educational Research Ken Springer,2009-10-05 Clearly organized well written and user friendly Educational Research provides a comprehensive look at quantitative qualitative and mixed method approaches to research Using concrete examples throughout the book features a Spotlight on Research section providing an extended look at three published articles per chapter The book has been created with a breadth and depth fitting a higher level course yet is clear enough to accommodate students in advanced undergraduate classes Set up in a modular format this easy to read text can be followed in chronological order or chapters can be used out of sequence to better serve your classroom needs Rich in pedagogical features Educational Research offers several elements that help the student to synthesize the main ideas of each chapter into the context of a real world researcher
