Maria-Angeles Ruiz Moneva,2020-06-12 Swift s A Modest Proposal has always aroused the interest not just of literary critics but also of linguists and pragmatists Within the latter approaches the study of irony and more concretely the intentions and attitudes that must have guided the production of such an intricate work have always been paramount However it seems that within pragmatics the analysis has been restricted so far to the 1729 work itself In the present author s view it is interesting to contextualise this masterpiece of irony and satire within Swift s wider writing on Ireland an approach that remains to be carried out Accordingly this work sets out to analyse a selection of Swift s Irish Tracts with a view to tracing the evolution within Swift s literary production of his views and attitudes towards the situation of his homeland Although different pragmatic approaches are applied the emphasis is laid upon the contributions that the relevance theoretical framework and its studies on irony may bring to the understanding of this particular Tract The works selected are meant to cover and also be

representative of the main phases currently distinguished within Swift's writing on the Irish Question. It is therefore hoped that a deeper analysis of the former works by Swift on this topic will provide new insights for a better understanding of *A Modest Proposal*.

Material Relations Julia A. Hendon, Rosemary A. Joyce, Jeanne Lopiparo, 2013-11-15 Focusing on marriage figurines double human figurines that represent relations formed through social alliances Hendon Joyce and Lopiparo examine the material relations created in Honduras between AD 500 and 1000 a period of time when a network of social houses linked settlements of a variety of sizes in the region. The authors analyze these small seemingly insignificant artifacts using the theory of materiality to understand broader social processes. They examine the production use and disposal of marriage figurines from six sites: Campo Dos Cerro Palenque Cop n Currust Tenampua and Travesia and explore their role in rituals and ceremonies as well as in the forming of social bonds and the celebration of relationships among communities. They find evidence of historical traditions reproduced over generations through material media in social relations among individuals families and communities as well as social differences within this network of connected yet independent settlements. *Material Relations* provides a new and dynamic understanding of how social houses functioned via networks of production and reciprocal exchange of material objects and will be of interest to Mesoamerican archaeologists anthropologists and art historians.

The Universe at Midnight Ken Croswell, 2002 From the internationally acclaimed author of *Magnificent Universe* Ken Croswell comes the definitive story of the golden age in our understanding of the universe the age we live in right now. The universe's origin evolution and fate have long fascinated humanity but until recently these subjects resided in astronomy's never-never land. The last ten years however have witnessed a stunning turnabout an avalanche of new cosmological discoveries that illuminate the greatest questions of all. *The Universe at Midnight* is a platform from which to observe these new deep space landmarks. Mammoth new telescopes on Earth such as the Keck Observatory in Hawaii the Very Large Telescope in Chile and Japan's Subaru Telescope as well as the Hubble Space Telescope overhead are probing the frontiers of the universe with stunning results. In 1996 astronomers pinpointed the center of the elusive Great Attractor a mass of galaxies 250 million light years away that is trying to tug our Galaxy and thousands of others across the universe. In late 1997 two teams hunting supernovae in galaxies billions of light years away shocked their colleagues.

The Study of Greek and Roman Religions Nickolas P. Roubekas,2022-07-14 How should ancient religious ideas be approached Is religion an applicable term to antiquity Should classicists ancient historians and religious studies scholars work more closely together Nickolas P Roubekas argues that there is a disciplinary gap between the study of Greek and Roman religions and the study of religion as a category a gap that has often resulted in contradictory conclusions regarding Greek and Roman religion This book addresses this lack of interdisciplinarity by providing an overview criticism and assessment of this chasm It provides a theoretical approach to this historical period raising the issue of the relationship between theory of religion and history of religion and explores how history influences theory and vice versa It also presents an in depth critique of some crucial problems that have been central to the discussions of scholars who work on Graeco Roman antiquity encouraging us to re-examine how we approach the study of ancient religions **Documents of the**
