Relembrando-A Velha Literatura de Cordel e a Voz dos Poetas Mark J. Curran,2014-09-24 Relembrando A Velha Literatura de Cordel e a Voz dos Poetas really contains three important studies on the cordel 1 the revision and translation of Curran s PhD dissertation from 1968 2 the augmentation of one of the chapters of the dissertation treating Brazil s best known and pioneering poet Leandro Gomes de Barros 3 the publication of a now historic series of interviews with forty cordel poets and publishers in the late 1970s Curran dedicates much time and energy to this endeavor because he believes the researches were little known in their original form and more importantly with the passage of time and the evolution of the cordel and Brazil in general they now remain as historic documents in Brazil s national cultural history African, Lusophone, and Afro-Hispanic Cultural Dialogue Yaw Agawu-Kakraba, Komla F. Aggor, 2018-11-27 African Lusophone and Afro Hispanic Cultural Dialogue is a collection of essays of broad historical and geographic scope that advances analytical perspectives regarding a highly transcultural and changing African continent enmeshed in the vestiges of slavery and colonialism and the complex dynamics of post colonialism Mostly grounded in literary studies the essays discuss the

interconnections between Africa and its Lusophone and Afro Hispanic diaspora Particular focus is given to how they relate to the politics of identity and assimilation migration and displacement the concept of nation Eurocentrism and racial essentialisms as well as Black aesthetics Geographers Elizabeth Baigent, André Reyes Novaes, 2022-06-16 The 40th volume of Geographers Biobibliographical Studies focuses exclusively on geographers from the Global South For the first time in the serial s history the entire volume is devoted to geographers who were born or who lived in South America and is combined with an editorial which roots their lives and careers in the context of the Global South more generally These geographers biobibliographies which consider their personal and professional trajectories and encounters deepen our understanding of geography as a whole and raise important wider questions of the scope and place of Southern scholarship This volume includes meticulously detailed volumes on five of the most prominent and ground breaking geographers in the Global South including The Argentinian geographer Elina Gonz lez Acha de Correa Morales who was the first woman to apply for membership of the Argentinean Geographical Institute in 1888 and who played an important role in developing geographical science in Argentina The Brazilian geographer Bernardino de Souza active in Brazil in the late nineteenth century as a secretary of the Geographical and Historical Institute of Bahia The Portuguese scholar Jaime Zuzarte Cortes o Director of the National Library of Portugal who was exiled in Brazil between 1940 and 1957 and greatly influenced research into the exploration and mapping of South America The Brazilian geographer Josu Apol nio de Castro who was a member of the United Nations Food and Agriculture Organisation's international advisory group on nutrition during the 1940s and the 1950s The late twentieth century Brazilian geographer Ant nio Carlos Robert Moraes who was a key figure in the circulation of critical approaches in Brazilian geography Together these biobibliographies allow the reader to focus on the Global South as a place of geographical knowledge production translation and reception enlarging our discipline s histories The volume also links the serial firmly to wider debates on decolonisation and post colonialism and is the latest manifestation of the editorial drive to broaden the serial s reach and impact and to consolidate its place as an important vehicle in narrating geography s international story The Invention of the Brazilian Northeast Durval Muniz de Albuquerque Jr., 2014-10-17 Brazil's Northeast has traditionally been considered one of the country's poorest and most underdeveloped areas In this impassioned work the Brazilian historian Durval Muniz de Albuquerque Jr investigates why Northeasterners are marginalized and stereotyped not only by inhabitants of other parts of Brazil but also by nordestinos themselves His broader question though is how the Northeast came into existence Tracing the history of its invention he finds that the idea of the Northeast was formed in the early twentieth century when elites around Brazil became preoccupied with building a nation Diverse phenomena from drought policies to messianic movements banditry to new regional political blocs helped to consolidate this novel concept the Northeast Politicians intellectuals writers and artists often nordestinos played key roles in making the region cohere as a space of common references and concerns Ultimately Albuquerque urges historians to question
