Can you imagine a world without masking tape? Write a letter to someone persuading them that developing problem solving strategies is important for our future. To help you get ready to write, answer the questions below.

1. Who is responsible for solving problems in our country?
2. What would our nation be like if we were incapable of solving problems?
3. List some examples of problem solving that have occurred in our nation since its inception.
4. Choose the three most important issues from the list above.
5. List some of the problems our country is experiencing at present that need to have solutions developed.
6. Choose the three most important issues from the list above.
