**Feasible Planet - A Guide to More Sustainable Living** Ken Kroes,2017-11-05 Are you concerned about the state of our planet and hope that governments and corporations will find a sustainable way for us to live If you do not think about it too hard that may work but will it Left on their own with drivers of popularity and profits I am not too convinced that it will The missing part of this equation is you and me Individuals who

believe that corporations and governments can do better Individuals who believe that through action we can buy a bit more time to develop and implement solutions to our critical issues Did I hear a groan out there when you read the word actions Do not worry Most of the actions that I am referring to will not only help save the planet but will benefit you right away through saving money time better health and having a happier life in general Sustainability goes beyond controlling our consumption and pollution There are key social political and economic areas that need to be addressed as well and there are several steps that individuals can take to help in these areas For those of you who feel we could do more this book is for you and is loaded with actionable activities the reasons for doing them and explores why we are not doing them already Every journey starts with a first step Hopefully this book will lead to those first sustainable steps and that will change the world
