,1992 **Television in Europe** Eli Noam,1992-02-06 Like its companion volume Telecommunications in Europe this book deals with the evolution of powerful monopoly institutions in the communications field the public broadcasters and the dramatic changes that took place in the late 1980s throughout Europe and transformed the media landscape It provides a comprehensive view of European broadcasting systems using the perspective of economics and policy analysis The introductory part offers a framework for understanding media and the forces of change affecting them The main section is a unique series of chapters covering the broadcast and cable television systems of almost thirty European countries **The Cold War and Entertainment Television** Lori Maguire,2016-08-17 An essential dimension of the Cold War took place in the realm of ideas and culture While much work exists on cinema relatively little research has been conducted on this subject in relation to television despite the latter being a technology and popular cultural form that emerged during this period This book rectifies that absence by examining the impact of the Cold War on entertainment television and underlines the comparative aspect by studying programs from both blocs without forgetting of course the outsize impact of American television Although most of the focus is on the two main protagonists the US and the USSR chapters also consider programming from the UK Czechoslovakia Romania and both East and West Germany This book represents a contribution to the debate about the cultural Cold War through a rigorously comparative analysis of the two blocs For this reason the approach used is thematic The study begins by considering the subject of censorship and then goes on to look at the very particular case of the two Germanys A series of comparative genre studies follow including police and war variety shows and documentaries and docudramas Perhaps surprisingly the similarities are often greater than the differences between television in the two blocs **A Critical History of Television's The Red Skelton Show, 1951-1971** Wesley Hyatt,2015-05-07 The Red Skelton Show was on the air for 20 years the longest running primetime network comedy variety series on television It was a top 10 series for nine years an accomplishment surpassed only by Gunsmoke and Home Improvement The series has a few unimpressive achievements too such as becoming the first top 10 series to be cancelled by a network Here is the history of The Red Skelton Show beginning with its debut in 1951 one of the top five that year The show then declined in popularity moved from CBS to NBC in 1953 slowly rose back to the top In its glory days of the 1960s it became an hour long show and finished at number two in two different years The cancellation of the show by CBS in 1970 despite its place in the top 10 was a surprise the last season back with NBC was a failure Appendices list cast and crew credits and special guests by season and offer information on the post Red Skelton lives of many of the principal players Unusual Footnotes to the Korean War Paul Edwards,2013-02-20 A forgotten war in modern history the Korean War is rarely given much recognition or studied in detailed In fact it was one of the bloodiest conflicts of the 20th century a deadly clash of world views as the UN allied itself with South Korea against the massed ranks of North Korean armies backed by Communist China In this new book Paul Edwards presents a fresh look at the Korean War focusing on a number of unusual

events that happened during the conflict Beginning with a look at the war itself Edwards goes onto tell the stories of the Salvation Army band that disappeared UFO sightings the Pulitzer Prize winning journalist Maggie Higgins and her battle to report in Korea as an equal with her male counterparts and an operation to rescue orphan children It also provides a fascinating look at the propaganda materials dropped over Korea by both sides This miscellany of the war allows readers to dip in and out of this e book only title a perfect e book for the daily commute FCC Record United States.
