

Final Reflection Paper

Soliya is an international exchange program that you helps you connect with different people around the world through digital devices. We gained more knowledge about each other's cultures, backgrounds, interests, dislikes, etc. I did not feel like this was a connect program for an educational purpose, in fact I felt as if it was an opportunity to make new friends with very interesting backgrounds and get to know more about their cultures and how they feed me with more knowledge each meeting.

The Soliya dialogue program in the Connect Express differs from other types of online communication which I am familiar with as that, the Soliya program enables students to interact with other students from all around the world. The different identities and ideologies which attend a single conference room in the Soliya programme is what gives it its edge over the other online applications which I have used. Unlike any other form of online communication which I have used, the Soliya program has a facilitator in each conference which raises the topic of discussion and asks the questions, this makes it much easier for the flow of communication in the room.

This program helpt me to learn that I am very confident, talkative, and open, in the digital world. I have no problem sharing personal information or personal stories for the benefit of others, and during the Soliya program. On Soliya, I was a lot more open than I usually am on social media, I rarely post things on Facebook or Instagram, but on Soliya, it seemed vital to share and discuss a lot of topics because it was in an academic context.

I think if people knew their thoughts were accepted they would communicate a lot more both online and in real life. Making digital platforms and conversations in general non-biased and nonjudgmental would definitely help foster constructive
