Good For Enterprise Documentation:

Integrative Document & Content Management Len Asprey, Michael Middleton, 2003-01-01 Portals present unique strategic challenges in the academic environment Their conceptualization and design requires the input of campus constituents who seldom interact and whose interests are often opposite The implementation of a portal requires a coordination of applications and databases controlled by different campus units at a level that may never before have been attempted at the institution Building a portal is as much about constructing intra campus bridges as it is about user interfaces and content Designing Portals Opportunities and Challenges discusses the current status of portals in higher education by providing insight into the role portals play in an institution's business and educational strategy by taking the reader through the processes of conceptualization design and implementation of the portals in different stages of development at major universities and by offering insight from three producers of portal software systems in use at institutions of higher learning and elsewhere Elihu Root Collection of United States Documents ,1899 Weekly Compilation of Presidential Documents ,1999 House documents ,1897 Safeguarding Critical E-Documents Robert F. Smallwood, 2012-06-20 Practical step by step guidance for corporations universities and government agencies to protect and secure confidential documents and business records Managers and public officials are looking for technology and information governance solutions to information leakage in an understandable concise format Safeguarding Critical E Documents provides a road map for corporations governments financial services firms hospitals law firms universities and other organizations to safeguard their internal electronic documents and private communications Provides practical step by step guidance on protecting sensitive and confidential documents even if they leave the organization electronically or on portable devices Presents a blueprint for corporations governments financial services firms hospitals law firms universities and other organizations to safeguard internal electronic documents and private communications Offers a concise format for securing your organizations from information leakage In light of the recent WikiLeaks revelations governments and businesses have heightened awareness of the vulnerability of confidential internal documents and communications Timely and relevant Safeguarding Critical E Documents shows how to keep internal documents from getting into the wrong hands and weakening your competitive position or possibly damaging your organization's reputation and leading to costly investigations
