Narratives of Qualitative Research Josh Tenenbergh, 2024-05-21 Narratives of Qualitative Research uses a novel form of writing about how to do qualitative research called a praxis narrative Each narrative is told from the author's perspective in carrying out one of his past research studies in the social sciences Told chronologically and in a first person voice the narratives position the reader alongside the narrator so as to vicariously experience how research happens in its situated particulars Rather than a set of idealizations and universalized pronouncements the author reveals what really goes on when one is in the thick of complex and challenging research studies the points of trouble along with the successes This will be relevant to researchers who have already undertaken one or more empirical research studies though not necessarily using qualitative approaches and now find themselves facing something new a new analytic method a new theoretical lens a new form of data collection a new domain of research questions a new rhetorical approach This requires letting go of the secure handholds of prescribed methods and responding to the contingencies that arise in the midst of the research The reader is invited to follow along as the author makes visible his praxis of qualitative research Unlike more conventional texts in this unique alternative the reader can follow the author's journey through his research studies as a way to reorient their conception of qualitative research and their own praxis of it This is fascinating reading for qualitative researchers and students taking qualitative research courses across the social sciences education and behavioural sciences

GoPro Hero 10 Black: A Complete Guide From Beginner To Advanced Level Steven Walryn, 2023-03-07 The GoPro Hero 10 black is the newest addition to the industry leading action camera line There is no better action camera than the GoPro Hero 10 black which is submersible shockproof and packed with features It can record up to 10 hours of 4K video at 30 frames per second Moreover the camera includes a new and enhanced picture stabilization mechanism that may cut down on

shaking by as much as 2.5 times. Take your friends and family on vacations or to sporting events and capture every moment in stunning 4K resolution with the GoPro Hero 10 Black. In the past, only GoPro mounts and accessories could be used with GoPro cameras. The advent of the Hero 10 Black, however, has made them suitable for use with a variety of mounts and accessories. The Hero 10 Black is a brand new camera made for both serious filmmakers and casual users who wish to record their exploits in stunning 4K resolution. You don't even need a case since the camera can survive being submerged in water for up to 10 minutes at a depth of 33 feet. The Hero 10 Black is the most recent iteration of GoPro's well-regarded action cameras. For connectivity with smartphones and other devices through its mobile app, GoPro included a 4K at 60fps 12 megapixel main camera, a 5 megapixel wide angle secondary camera, and built-in Wi-Fi and Bluetooth. The camera can be operated by speech, can record in 360 degrees, and has electronic picture stabilization. In terms of GoPro cameras, the newest and most feature-packed model is the Hero 10. The camera can record 4K video, has a screen on the front, and is waterproof without a protective cover. A screen is integrated onto the front of the GoPro Hero 10 Black.

Design Thinking Research
Hasso Plattner, Christoph Meinel, Larry Leifer, 2015-09-08. This book summarizes the results of Design Thinking Research carried out at Stanford University in Palo Alto, California, USA, and Hasso Plattner Institute in Potsdam, Germany. The authors offer readers a closer look at Design Thinking with its processes of innovations and methods. The contents of the articles range from how to design ideas, methods, and technologies via creativity experiments and wicked problem solutions to creative collaboration in the real world and the connectivity of designers and engineers. But the topics go beyond this in their detailed exploration of design thinking and its use in IT systems engineering fields and even from a management perspective. The authors show how these methods and strategies work in companies, introduce new technologies and their functions, and demonstrate how Design Thinking can influence as diverse a topic area as marriage. Furthermore, we see how special design thinking uses functions in solving wicked problems in complex fields. Thinking and creating innovations are basically and inherently human, so is Design Thinking. Due to this, Design Thinking is not only a factual matter or a result of special courses, nor of being gifted or trained; it's a way of dealing with our environment and improving techniques, technologies, and life.

Conservation Drones Serge A. Wich, Lian Pin Koh, 2018-05-31. Increasing numbers of ecologists and conservation biologists have begun to explore the use of drone technology to obtain accurate and up-to-date data on the distribution and density of species, as well as the threats to their habitats, in their ongoing attempts to conserve and monitor biodiversity. Conservation drones are low-cost, autonomous, and operator-friendly unmanned aerial vehicles that can be used for surveying, mapping, and monitoring both habitat and biodiversity. They are fast becoming a valuable complement to ground-based surveys and satellite imagery for a wide range of ecological and conservation applications. The authors pioneered the use of conservation drones for the purpose of monitoring orangutan populations in Southeast Asia. They subsequently founded ConservationDrones.org to share their knowledge of building and using drones with colleagues in the wider environmental

community This website has proved highly popular and this book aims to further build capacity to use drones and inspire others to adapt emerging technologies for practical conservation The Complete Guide to Drones Extended 2nd Edition Adam Juniper, 2018-05-03 If you think you need a boarding pass to fly you're really missing out Today drones are everywhere From film studios to farms they're in the hands of photographers commercial surveyors and racers alike This fully illustrated book explains how drones developed where they're going and which one you should choose It even includes complete instructions to build both a simple drone and a super fast FPV racer yourself Whether you're flying indoors or out buying or building this book covers everything Understand the Jargon Flying has a lot of unfamiliar terminology but this book will make it easy to master Business or Pleasure Every type of multicopter you might want is introduced including explanations of which is best suited for what role Get the Best Pictures This edition includes an extended guide to the tech and composition tricks you can use to make your pictures stand out of the pack Get the Best Video A new shot guide shows you how to get the most engaging aerial video whatever your drone Be a Winning FPV Racer There are two complete step by step instructions for building your own drones inside an FPV racer or a surprisingly cheap wooden drone both great projects Following the worldwide success of the first edition which has been translated into numerous languages this second edition is not only fully updated to keep pace with the laws and technology but also extended to thoroughly cover the fast growing new sport of FPV drone racing while still including a comprehensive guide to learning to fly any drone **The Routledge International**

Design Change to Fishery Independent Surveys: When to Adjust and How to Account

For It Fabio Campanella, Ben Scouling, Nathan Bacheler, Kyle Shertzer, 2025-03-07 Fishery independent surveys provide crucial information for monitoring and assessing marine fish stocks. Their utility can largely be attributed to sampling procedures that are consistent across space and time such that observed dynamics can reasonably be assumed to reflect those of the population or community being studied. However, sometimes changes to the survey design become desirable or necessary. They may be desirable if the benefits of modification outweigh the benefits of consistency for example with improvements in sampling technology or efficiency, revised survey priorities or increased funding that allows for greater spatial coverage or temporal resolution. In other cases, changes to the survey design may not be desirable but necessary for example when specific supplies or equipment become unobtainable or with reductions in funding, ship time or human resources.

Aerial Photography and Videography Using Drones

Eric Cheng, 2015-10-30 Inexpensive consumer drones that offer ease of flight and high quality photography and videography have exploded on the market recently creating what can only be described as drone mania amongst a diverse range of potential users. Because camera carrying drones still really only exist on the edge between hobby and the mainstream, there is still a lot of confusion about what these small drones are capable of doing. The decision to purchase one is just the first in a long stream of things a new owner must think about. **Aerial Photography and Videography Using Drones** is designed to help you make the most of the opportunities these nimble, affordable and accessible flying machines have created for aerial photography and videography. Within this definitive guide, you'll learn about the following: the current state of camera drone equipment; how to become a competent drone operator; tips for getting the best aerial still images and videos; stories from aerial photographers and videographers from around the world; the current regulatory state for drone usage in the U.S.; techniques demonstrated in several videos you can download from peachpit.com along with pre-flight checklists and worksheets for flight training.

Feminist Research for 21st-century

Childhoods B. Denise Hodgins, 2019-03-21 This book is a collection of feminist childhood studies stories from field research with educators, young children and/or early childhood student educators that explores the challenges, tensions and possibilities of common worlds research methods for the 21st century. Grounded in a common worlding orientation, the contributing authors grapple with complex methodological understandings within postqualitative practices within settler colonial states: Australia, Canada, South Africa and the United States. Each chapter presents a method the authors have put to work in their efforts to unsettle the interpretative power of Euro-Western developmental knowledges and anthropocentric frameworks to reimagine research amid the colonialist social and environmental challenges we face today. The researching stories act as provocations for generating innovative relational and emergent methods to attend to the complexity of 21st century childhoods. Just as developmental and sociological perspectives gave birth to new forms of inquiry within childhood studies in 19th century industrialization and 20th century urban change respectively, the 21st century requires novel

questions practices and methodologies to enhance the childhood studies lexicon In the field of childhood studies where settler colonial and neoliberal logics have so much clout such strategies are crucial Feminist Research for 21st century Childhoods is an important and relevant read for anyone working and researching with children [Best of Make: Volume 2](#) The Editors of Make:, 2015-08-28 After ten years Make has become one of most celebrated magazines to hit the newsstands and certainly one of the hottest reads If you're just catching on to the Maker Movement and wonder what you've missed this book contains the best projects and articles from the magazine Find out what keeps Makers coming back to Make with this assortment of DIY projects and articles selected by Make's editors Learn to Outfit your workshop and make some must have tools Build electronic projects from actuators to antennae Make things with Arduino and Raspberry Pi Create drones and robots Build noisemaking projects and musical instruments Augment your photo and video capabilities Make your own food soap ink and more

The Camera as Actor Amy Cox Hall, 2020-11-29 Looking beyond the impact photographs have on the perpetuation and expression of social norms and stereotypes and the influence of the act of taking a photograph this new collection brings together international scholars to examine the camera itself as an actor Bringing the camera back into view this volume furthers our understanding of how and in what ways imaging technology shapes us our lives and the representations out of which we fashion knowledge base our judgments and ultimately act Through a broad range of case studies the authors in this collection make the convincing claim that the camera is much more than a mechanical device brought to life by the photographer This book will be of interest to scholars in photography visual culture anthropology and the history of photography
