Teaching Mathematics in Primary Schools Robyn Jorgensen,2020-08-12 This is an outstanding book it should be high on the list of any primary school teacher s set of references and a required text for pre service teachers Australian Primary Mathematics Classroom In our technology rich world numeracy is just as important as the smartphone in your pocket Students need to develop mathematical ways of seeing the world and strong problem solving skills and those foundations are taught in the primary school classroom Teaching Mathematics in Primary Schools covers the mathematical content taught in primary and middle years always emphasising how students can connect what they learn in mathematics with other curriculum areas and with the world beyond the classroom The authors draw on the latest international research to show how teachers can develop a rich repertoire of classroom teaching techniques and effective planning assessment and reporting methods They outline approaches to creating supportive learning environments for all students and to building their knowledge and confidence in using mathematics This third edition has been updated throughout and includes a new chapter on numeracy Evidence based uses of digital technologies to support learning and teaching are included in every chapter With practical strategies that can

be implemented in the classroom this book is an invaluable resource for pre service and early career primary and middle years mathematics teachers *Place Value, Grades K - 5* Graham,Duff,2010-06-11 Make math matter to students in grades K 5 using Place Value This 64 page book helps students especially struggling learners understand the base ten system This book contains reproducible base ten models practice pages assessments games and Web sites It covers topics such as naming and writing numerals counting using expanded notation ordering and comparing numbers and applying knowledge about numbers The book supports NCTM standards , *Reframing Financial Literacy* Thomas A. Lucey,James D. Laney,2012-06-01 Scholarship related to financial and consumer education largely concerns itself with the acquisition management and growth of financial resources In a global setting that witnesses increasing competition for natural resources along with diminishing appreciation for human rights a challenge for financial and consumer educators involves developing foundation for bettering individual wealth in manners that respect all members of a global society Reframing Financial Literacy fills this need by providing literature that examines a broad view of financial literacy by connecting financial practice with issues of citizenship along with personal and professional identity It relates these issues to educational theory and practice to provide the reader with information about the relevance of improving social worth while bettering financial wealth Boasting 14 previously unpublished chapters from an international slate of authors and classroom adaptable lesson plans for each chapter Reframing Financial Literacy will interest both teachers and researchers with its exciting classroom activities and its provocative content This is a must work that no education professional should be without
