Huston Smith Study Guide Christianity:

SCM Studyguide to Religious and Spiritual Experience Jeff Astley, 2020-03-31 Spiritual religious sacred or mystical experiences may be broadly defined as subjective human experiences that appear to the person undergoing them or to others to convey or imply contact with or knowledge about a transcendent power presence or superior reality beyond the realm of the physical Research has shown that these forms of awareness of something beyond are of considerable significance in the ordinary lives of very many people as well as being elements of signal importance in the origin and development of religion not least by deepening characteristically spiritual or religious attitudes emotions beliefs values and practices along with fundamental orientations of life and quests for meaning This Studyguide provides a succinct and lucid introduction to the subject for those studying religion at both undergraduate and GCE AS A level By exploring the key areas of both the empirical and theoretical study of religious and spiritual experience the Studyguide will serve as an accessible and nonpartisan guide to enable its readers to explore the range of challenging data debates approaches and issues that relate to the study of this widespread and significant phenomenon

Studying Christianity William H. Brackney, 2010-01-28 This is an essential guide to the study of Christianity Clearly structured to cover all the major areas of study including chapters on how Christianity has been studied foundations and scripture community and structure religious values theology and ethics rituals and spirituality aesthetics and the teleological nature of Christianity this is the ideal study aid for those approaching Christianity for the first time With helpful suggestions for further study pointing students towards material such as primary sources scriptures films and novels and including ideas for teaching discussion topics and exercises Studying Christianity is the perfect companion for the beginning student of Christianity

Material Christianity Christopher Ocker, Susanna Elm, 2020-02-26 This collection of essays offers a series of rigorously focused art historical historical and philosophical studies that examine ways in which materiality has posed and still poses a religious and cultural problem The volume examines the material agency of objects artifacts and environments art ritual pilgrimage food and philosophy It studies the variable senses of materiality the place of materiality in the formation of modern Western religion and its role in Christianity's dialogue with non Western religions The essays present new interpretations of religious rites and outlooks through the focus on their material components They also suggest how material engagement theory a new movement in cultural anthropology and archeology may shed light on the cultural history of Christianity in medieval and early modern Europe and the Americas It thus fills an important lacuna in the study of western religion by highlighting the longue dur e from the Middle Ages to the Modern Period of a current dilemma namely the divide between materialistic and what might broadly be called hermeneutical or cultural critical approaches to religion and human subjectivity

Introduction to the Study of Religion Hillary P. Rodrigues, John S. Harding, 2008-08-20 Why do people study religion How have they studied it in the past How do we study religion today Is the academic study of religion the same as religious education These and many other

questions are addressed in this engaging introduction to the discipline of religious studies written by two experienced university teachers. The authors have crafted this book to familiarize novice students with key concepts and terminology in the study of religion. More advanced students will find a varied array of theoretical perspectives and methodological approaches to the field. Topics include definitions of religion, perspectives in the study and teaching of religion, how religion began to be studied, traditional perspectives, philosophical and theological, how people experience religion, perspectives in the study of religious consciousness and perception, phenomenological and psychological, studying religion within communities, social and cultural perspectives, anthropological, sociological, political and economic, judging religion, critical perspectives, feminist approaches, the interaction of popular literature and religion, contextual perspectives, historical and comparative. The book encourages students to think critically about the theories and methods presented. Students will find arguments for the strengths and limitations of these approaches, understand connections among religious studies and other intellectual movements, and develop their own ideas of how they might want to go about the study of religion. Summary boxes, a timeline, a glossary, and other pedagogic aids help students grasp key concepts along with a companion website at www.sastor.com.

The Ultimate Guide to the Top 100 Religion & Spirituality Books Navneet Singh, Introduction Religion and spirituality shape our beliefs, values, and understanding of the world. The best books in this genre offer wisdom, guidance, and inspiration, covering sacred texts, philosophical reflections, and modern spiritual explorations. This guide highlights 100 must-read religion and spirituality books covering various faiths, personal growth, mindfulness, and deep theological insights. Whether you're a believer, seeker, or scholar, these books will provide valuable knowledge and reflection. *Studying Religion* Russell McCutcheon, 2024-01-22. Widely used as a primer, a class text, or just a provocation to critical thinking, *Studying Religion* clearly explains the methods and theories employed in the academic study of religion by tackling the problem of how scholars define and then study religion. Written for all newcomers to the field, its brief chapters explore the three main ways in which religion is defined and, along the way, also consider a range of related topics from the history and functions of religion to its public discourse, religion in the courts, and the classification of diverse groups into world religions. The works of classic and contemporary scholars from Karl Marx and Sigmund Freud to Bruce Lincoln and Naomi Goldenberg are analyzed and explored in readable chapters and detailed supporting materials. *Studying Religion* represents a shift away from the traditional descriptive and comparative approach and instead uses the study of religion to invite readers to consider how they divide up the world and come to know the world around them. This edition also includes a new final chapter, *Identification Matters*, adding to the case studies included throughout this book to present a collection of contemporary instances where different approaches to defining and studying religion make it possible to study other issues of contemporary relevance, including those involving gender, race, and the rights of indigenous peoples. The new chapter makes explicit the practical topics of identity and status that have always been implicit throughout the entire book, bringing into the classroom a wide variety of

timely and relevant topics that can be better understood by its approach This book therefore remains invaluable to all students of religious studies whether in the introductory class or as an example of an alternative way of approaching the field

Christianity/Islam Frithjof Schuon, 2008-03-26 Schuon's articles on the relationship between Christianity and Islam have profound implications in the field of inter religious dialogue Several thought provoking chapters shed light from an inward dimension upon the apparent outward contradictions between these two religions notably in the field of moral divergences This new edition is a fully revised translation of the original French edition and contains an extensive new Appendix with previously unpublished selections from his letters and other private writings **The Essential Frithjof**

Schuon Seyyed Hossein Nasr, 2005-06-22 Frithjof Schuon had a unique ability to penetrate to the heart of the world's great spiritual traditions revealing new dimensions that astounded general readers and scholars alike Schuon's insights on religion prayer the spiritual life aesthetics and philosophy shine throughout this book Religion Dans L'histoire Michel

Despland, Gérard Vallée, Canadian Corporation for Studies in Religion, 1992-03-03 The history of the concept of religion in Western tradition has intrigued scholars for years This important collection of eighteen essays brings further light to the ongoing debate Three of the invited participants W C Smith M Despland and E Feil have each previously written impressive books treating this subject the last two acknowledged the impact and continuing influence of Smith's work The Meaning and End of Religion An introduction and a recapitulation of Smith's contribution as a scholar set the stage for a retrospective look at the published literature Contributors then examine the transformation of words the classical *religio* to the modern religion particularities of religion in nineteenth century France Troeltsch's concept of religion the study of religion from an Asian point of view and the categorization of World Religions The concluding essays elaborate contemporary anthropological cross disciplinary semiological deconstructive and psychoanalytical methodological approaches to the concept and study of religion Exploring critically different aspects of the concept and study of religion these provocative essays typically reflect the methodological pluralism currently existing in the field of Religious Studies Of interest to scholars and students alike this collection also contains a complete bibliography of W C Smith's publications **Orientalism and Religion** Richard

King, 2013-04-03 Orientalism and Religion offers us a timely discussion of the implications of contemporary post colonial theory for the study of religion Richard King examines the way in which notions such as mysticism religion Hinduism and Buddhism are taken for granted He shows us how religion needs to be reinterpreted along the lines of cultural studies Drawing on a variety of post structuralist and post colonial thinkers such as Foucault Gadamer Said and Spivak King provides us with a challenging series of reflections on the nature of Religious Studies and Indology
