**Proceedings of SECON'22** Giuseppe Carlo Marano,A.

V. Rahul, Jiji Antony, G. Unni Kartha, P. E. Kavitha, M. Preethi, 2022-10-29 This book gathers peer reviewed contributions presented at the 3rd International Conference on Structural Engineering and Construction Management SECON 22 held in Angamaly Kerala India on 13 June 2022. The meeting served as a fertile platform for discussion sharing sound knowledge and introducing novel ideas on issues related to sustainable construction and design for the future. The respective contributions address various aspects of numerical modeling and simulation in structural engineering structural dynamics and earthquake engineering advanced analysis and design of foundations BIM building energy management and technical project management. Accordingly the book offers a valuable up to date tool and essential overview of the subject for scientists and practitioners alike and will inspire further investigations and research. **Recent Advances in Sustainable**

**Environment** Krishna R. Reddy, Susheel Kalia, Srinivas Tangellapalli, Divya Prakash, 2022-10-25 The book presents the select proceedings of the International Conference on Recent Advances in Sustainable Environment RAiSE 2022. It discusses recent challenges and advances in various areas of sustainable environment. The topics covered include environmental dynamics atmospheric physics physical oceanography global environmental change ecosystems management climate climatic changes global warming ozone layer depletion carbon capture storage integrated ecosystems management satellite applications in the environment environmental restoration ecological engineering habitat reconstruction biodiversity conservation deforestation landscape degradation restoration ground water remediation soil decontamination environmental sustainability renewable sources of energy clean technologies toxicity assessment epidemiological studies indoor air pollution etc. This book will be useful for the researches academicians scientists and professionals working in the various areas of environment sustainability especially sustainable civil engineering. **Step by Step Rcc Design of Multistorey Buildings** Padma

GAUTAM, 2020-07-04 This book is a complete tutorial for analysis designing and detailing of RCC buildings by both manual and computer software STAAD Pro and STAAD foundation means. It explains the processes of analysis and design of a multistorey building step by step by limit state method employing self load service load and earthquake loads. It uses a single example of a real world reinforced concrete building problem to explain all the processes analysis and design from beginning to end. This makes the book most useful for students and practicing professional alike. This is a must book for civil and structural engineering students teachers and construction professionals. **Guide to Coal India Management Trainee**
