

few seconds. But in Germany, a man named Johann Gutenberg (1398-1468) soon changed the world with his invention—a movable-type printing press. With this invention, letters could be rearranged so that books could be printed quickly. This forever changed the world of literature, creating an explosion of books.

How did the Black Death lead to the Renaissance?

**A** It made people give more money to the Church, and the Church used its wealth to sponsor artists.

**B** It inspired writers and painters to make art that celebrated life in order to make people feel better.

**C** When his brother died of the Black Death, Johannes Gutenberg inherited the print shop in which he would invent moveable type.

**D** It decreased the population, so each person could have more resources, creating economic prosperity.

According to the passage, the Black Death "had one positive effect: it left more in terms of food, resources and wealth for those who survived. This bounty helped usher in an economic boom."
