Vantage Quick-Reference Guide

Congratulations, and thank you for purchasing the Eyewitness Vantage Officer-Worn Camera from Kustom Signals. While Vantage offers a number of configurable features, actual operation is very simple. Once powered on, there are only three controls available, and just one, the prominent Record start/stop switch, that will be used frequently. This guide should provide everything you need to know to start using the camera.

Note that two options for configuring the cameras are available:

- 1) The camera has been shipped to you with the default configuration. (Defaults are listed on page 4). Check with your administrator for making changes to the configuration.
- 2) The second configuration option involves your agency pre-selecting the desired configuration. If this was done, your Vantage will have shipped pre-configured to your requirements.

Getting Started

- 1) Please charge your camera before the first use. A fully depleted standard battery requires 2 ½ hours to fully charge and will provide 4 ½-5 hours of record time. The extended battery option requires 4 hours to charge and provides up to 9 hours of record time.
- 2) Familiarize yourself with the controls and indicators detailed in this guide.
- 3) Please refer to your Agency's Administrator for the process you will use to download files into your database and for information on the configuration options.
