Managing Successful Programmes Official Manual:

Managing successful programmes Great Britain. Office of Government Commerce, 2007-09-03 Combining rigour and flexibility MSP helps all organisations public sector and private large and small achieve successful outcomes from their programme management time and time again With change a pressing reality for all organisations successful programme management has never been more vital to success Organisations must respond as new processes or services are introduced supplier relationships alter and structures adapt to market forces or legislation At the same time all organisations strive to achieve excellence by improving practices offering better services preparing more effectively for the future and encouraging innovation But change always creates new challenges and risks Inevitably there will be interdependencies to manage and conflicting priorities to resolve as the organisation adapts not just to a new situation internally but to the constantly shifting world outside To enable organisations to manage their programmes successfully they need a structured framework that does two things It must acknowledge that every programme exists in its own context and demands unique interpretation At the same time it must be universally applicable MSP has been developed with these two priorities in mind Its framework allows users to consistently manage a huge variety of programmes so that they deliver quality outcomes and lasting benefits Fusing leadership with management best practice MSP enables organisations to coordinate their key functions develop a clear sense of unity and purpose and achieve the strategic cohesion necessary to drive through effective change **Project**
