University on the Border Lis Lange, Vasu Reddy, Siseko H. Kumalo, 2021-08-27 The volume explores and thinks through the process of decolonising the South African higher education system by examining MustFall The text offers theoretical insights from a historical contemporary and multidisciplinary lens while examining the embedded meanings of the university as an institution idea and set of practices to show the shifts and changes that were inaugurated by MustFall along with the historicities that define the university both locally and globally The retro and prospective insights presented in the book surface the crisis of authority that places the university in a state of precarity which is framed in the book as the border The volume proposes the concept of the border recognising its conceptual and analytical dynamism as a generative space that can facilitate new imaginaries and articulations of this social institution the university

Corrupted Jonathan D Jansen, 2023-02 Through investigatory reports and interviews Jonathan Jansen reveals the structural conditions for chronic dysfunction in a sample of South African universities He reveals the political economy at work and the intense competition for resources on campuses He also provides interventions for these fragile institutions Why do some universities seem to be in a constant state of turmoil and dysfunction Jonathan Jansen explores the root causes of chronic instability in a sample of South African universities Through scrutiny of investigatory reports and interviews with more than 100 university managers and government officials Jansen finds that at the heart of the dysfunction in universities is an intense and sometimes deadly competition for resources especially on campuses located in impoverished communities It is not the lack of institutional resources but their concentration in a university that draws a mix of corrupt actors from local politicians and taxi operators to members of council and management into a never ending run on the material such as money for infrastructure and symbolic namely graduation certificates for sale assets of these institutions Jansen argues that the problem won't be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Jansen makes an important intervention to understanding the root causes and offers interventions to produce stabilities such as the depoliticisation of university councils and appointing academics of integrity and capacity in the management and leadership of these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly

The South African Builder, 1982 **ETDP SETA Scarce & Critical Skills Guide 2010/11**, Technology Transfer

from South African Technology Stations to Their SME Clients Leisl Joanne Neskakis, 2012-03-15 It is widely held that technology transfer is closely linked to a nation's economic development For this reason the South African government assigned twelve technology stations to support small and medium sized enterprises SME The main aim of these stations is the transfer of technology from the universities where they are housed to the SMEs in scientific areas ranging from biotechnology to agriculture This study delivers a detailed analysis of each technology station and offers an explanation as to why some technology stations are more successful than others This study focuses on the influence of the organizational culture on technology transfer and employs Cultural Theory to analyze, categorize and thereby compare the culture types of the organizations being studied A few other interesting discoveries are also made by this study that Grid Group Cultural Theory can be utilized in the methodology of a study to determine the organizational culture of any organization that if the impact of organizational culture on technology transfer can be determined empirically then the impact of organizational culture on other factors can also be determined empirically and that if organizational culture can be used to determine the success of technology transfer then it can probably determine the success of other organizations irrespective of what service that organization provides Southern Africa Report, 1990 *Settling for Less* Michael Cosser, Jacques Du Toit, Mariette Visser, 2004 This study gives statistical and evidential illustration to what influences student choices and behavioral patterns as well as trends in the youth market in South Africa South Africa News Update, 1993 Consists of reproductions of articles from South African newspapers *South African Journal of Chemistry*, 1984 **Congressional Record** United States. Congress, 1985 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **The Guardian Index**, 1995 The Ambiguous Champion Linda Freeman, 1997 The Ambiguous Champion is the first comprehensive and critical study of Canadian foreign policy towards South Africa Freeman challenges the conventional belief that successive Canadian governments took the high road leading the international struggle against apartheid She shows that Canadian policy like the policy of other Western states was complex, ambiguous and contradictory Freeman's approach offers an alternative understanding of the forces shaping Canadian foreign policy Legend has it that Canadian prime ministers from Diefenbaker to Mulroney led the way in the international campaign against the apartheid state in South Africa Yet before Mulroney came to power except on a few occasions in the Commonwealth Canadian prime ministers did little to support the anti apartheid cause While Mulroney did significantly better invoking concrete economic sanctions and tackling Margaret Thatcher within the Commonwealth the policies of his government were compromised and limited the claims made for it excessive The state championed a cause but followed through in a highly ambiguous way Central to the explanation is an exploration of the

influence groups within civil society especially the private sector on the formation of state policy Attention is also given to the way which churches trade unions universities anti apartheid groups and the media played in calling for a stronger Canadian policy against apartheid The approach offers an alternative way of understanding how foreign policy is made which goes beyond the South African case The Ambiguous Champion will challenge scholars in Canada and abroad in their analyses of relations with South Africa It is a major contribution to both the history and theory of Canadian foreign policy AF Press Clips United States Department of State.
