Selection N Manikanda Boopathi,2012-12-12 Genetic mapping and marker assisted selection MAS is considered as one of the

major tools in genetic improvement of crop plants in this genomics era This book describes basics in linkage mapping step by

step procedure to perform MAS achievements made so far in different crops and limitations and prospects of MAS in plant

breeding It summarizes all this in a simple but comprehensive mode using suitable examples so as to explain the concept and

its historical developments To summarize this book describes technologies for identification of genes of interest through

genetic mapping recaps the major applications of MAS to plant breeding lists examples in which MAS is being applied to

various breeding programs and emphasizes the various difficulties that limit the application of MAS in plant breeding

providing possible solutions to overcome these difficulties and finally tries to illustrate the future prospects This book would
