Handbook of Research on Inclusive and Accessible Education Maguvhe, Mbulaheni Obert, Mpya, Nwacoye Gladness, Sadiki, Marubini Christinah, 2024-02-16 In the vast expanse of education a pervasive issue remains in the marginalization and lack of visibility of individuals with disabilities Despite a strong desire for inclusivity recent research suggests that fewer than 5% of children with disabilities in 51 countries across sub Saharan Africa and South Asia are enrolled in primary school This exclusion is not solely in enrollment numbers even those who manage to attend face learning environments ill equipped to adapt to their needs leading to further isolation Girls with disabilities in particular endure heightened vulnerability to abuse reflecting a systemic failure to provide an environment that fosters equality dignity and respect for all The Handbook of Research on Inclusive and Accessible Education emerges as an inspiration for change providing a profound solution to the persistent issue of exclusion The book encapsulates a collective effort to reimagine education It advocates for a paradigm shift moving away from the confinement of special schools and towards inclusive mainstream settings By addressing controversies sharing successes and outlining prospects the book serves as a comprehensive guide for special school governing bodies curriculum advisors university lecturers and all stakeholders committed to reshaping education

Natural Science and Indigenous Knowledge Edward A. Johnson, Susan M. Arlidge, 2024-04-18 How do we combine the areas of intersection between science and indigenous knowledge but without losing the totality of both This book's objective is to consider how Indigenous populations have lived and managed the landscape Specifically how their footprint was a result of the combination of their empirical knowledge and their culture The chapters are divided into four groups The first deals with reintegrating cultures and natural landscapes and the role of kinship and oral tradition The second group approaches the landscape as a living university of learning and managing discussing the ethnobotany of how to grow more responsibly and assess and project the harvest The third group deals with the managing of fire in an anthropogenic plant community and how to integrate indigenous agriculture in hydrology and dry regions The fourth group consists of studies of how science and indigenous knowledge can be taught in schools using land based studies
