# Fleetwood Motorhome Slideout Systems Operations Manual

## Introduction

The Power Gear electric slide out system in your unit is designed to give you years of trouble-free operation and reflects the latest state of the art technology. Read, study, and understand this manual before operating this Slideout System.

## System Description

The Power Gear Slideout System consists of four major components:

- Two inner rail assemblies (one for bedroom or wardrobe) designed to support the room weight.
- A 12 volt DC motor and drive shaft that will operate the room using power from the on-board unit battery.
- A Manual Override System that allows you to extend / retract the room in the event of loss of power.
- A specially designed control that gives the user full control of the room movement in or out. The control has a load sensing capability that stops the motor when the room reaches its fully extended or retracted positions.
