 Answer Key Test Paper 5 46 Note for Q 36 While HDI uses life expectancy and education the World Bank's primary  
 classification for comparing countries development levels in its reports has historically been GNI per capita a measure of  
 income The question is slightly ambiguous as besides income could imply other non income HDI components but comparing  
 development of different countries by the World Bank points to their income based classification Per capita income C is the  
 most direct fit in that context 47 SOF ISSO Olympiad Mock Test Paper 6 Social Science Class 10 48 Section 1 History 48
