Michele Issel, 2013-02-04

In this revision of Health Program Planning and Evaluation author L Michele Issel carefully walks the reader through the process for developing implementing and evaluating successful community health promotion programs Featuring reader friendly accessible language and practical tools and concepts this outstanding resource prepares students and professionals to become savvy consumers of evaluation reports and prudent users of evaluation consultants The Third Edition reflects the major changes in the field of community health with updated examples and references throughout New to this Edition New examples and references throughout the book New key references to reflect the major changes within the field New examples and issues related to global health planning and evaluation New material about information systems and web based technology as it applies throughout the planning and evaluation cycle New basic review of the ACA Enhanced information related to financing programs and monitoring the program costs Updated instructor s manual **Economics and Cost Analysis for Operations and Project Managers - 3rd Edition** Mahmoud Al-Odeh, Ph.D., *Economic and Cost Analysis For Operations and Project Managers - 2nd Edition* Mahmoud A. Al-Odeh, 2020-08-14 Financial Modeling in Excel For Dummies Danielle Stein Fairhurst, 2022-01-19 Turn your financial data into insightful decisions with this straightforward guide to financial modeling with Excel Interested in learning how to build practical financial models and forecasts but concerned that you don t have the math skills or technical know how We ve got you covered Financial decision making has never been easier than with Financial Modeling in Excel For Dummies Whether you work at a mom and pop retail store or a multinational corporation you can learn how to build budgets project your profits into the future model capital depreciation

value your assets and more You ll learn by doing as this book walks you through practical hands on exercises to help you build powerful models using just a regular version of Excel which you ve probably already got on your PC You ll also Master the tools and strategies that help you draw insights from numbers and data you ve already got Build a successful financial model from scratch or work with and modify an existing one to your liking Create new and unexpected business strategies with the ideas and conclusions you generate with scenario analysis Don t go buying specialized software or hiring that expensive consultant when you don t need either one If you ve got this book and a working version of Microsoft Excel you ve got all the tools you need to build sophisticated and useful financial models in no time **Engineering Economics for**

Aviation and Aerospace Bijan Vasigh,Javad Gorjidoorz,2016-12-08 For all engineers and practitioners it is essential to have a fundamental understanding of cost structure estimating cash flows and evaluating alternative projects and designs on an economic basis Engineering Economics for Aviation and Aerospace provides the tools and techniques necessary for engineers to economically evaluate their projects and choices The focus of this book is on a comprehensive understanding of the theory and practical applications of engineering economics It explains and demonstrates the principles and techniques of engineering economics and financial analysis as applied to the aviation and aerospace industries Time value of money interest factors and spreadsheet functions are used to evaluate the cash flows associated with a single project or multiple projects The alternative engineering economics tools and techniques are utilized in separate chapters to evaluate the attractiveness of a single project or to select the best of multiple alternatives Most of the engineering economics and financial mathematics books available in the market take either a pure theoretical approach or offer limited applications This book incorporates both approaches providing students of aviation and industrial economics as well as practitioners with the necessary mathematical knowledge to evaluate alternatives on an economic basis *Health Program Planning and*

Evaluation Michele Issel,2009-09-14 Health Behavior Education Promotion **CVal** Edward M. Bilek,2009 This documentation is meant to accompany CVal a downloadable spreadsheet tool CVal was constructed for foresters other land management advisors landowners and carbon credit aggregators to evaluate the direct benefits and costs of entering into contracts for carbon sequestered in managed forests and forest plantations CVal was designed to evaluate Exchange Forestry Offset XFO contracts on the Chicago Climate Exchange CCX although the methodology could be adapted for other trading mechanisms and agricultural sequestration projects Both the documentation and the spreadsheet tool are downloadable from http://www.fpl.fs.fed.us/documnts/fplgtr/fpl_gtr180/fpl_gtr180.html Versions of CVal are available both with and without macros Although all calculations can be done in the version without macros the macros version has buttons and automations that make the calculations convenient Our general finding is that it is critical in managed forest projects to determine whether carbon accumulated prior to entering the contract can be counted Depending on the contract year and length this can triple the revenue from CCX contracts If it is not possible to count pre contract year carbon then it may not be

economically worthwhile to enter the program unless it is extended Other critical variables having a large effect on the overall profitability include the trade price of sequestered carbon the carbon sequestration rate and the hurdle rate the minimum required rate of return on investment used Up front and annual costs are important but overall profitability is not quite as sensitive to these costs as it is to the previously mentioned variables Users are expected to enter their own data to evaluate the feasibility of specific projects Ebook: Fundamentals of Corporate Finance Brealey; Myers;,2016-04-16 Ebook Fundamentals of Corporate Finance **QuickBooks 2020 All-in-One For Dummies** Stephen L.
