

Quand il vit les pêcheurs
Faire leurs premiers péchés,
Dieu se mit en colère
et appela Noé :
mon bon vieux Noé,
je vais noyer la terre,

Le Chant de la Licorne Souryami, 2009-03-20 , *Les littératures nationales depuis leur apparition et la littérature latine depuis la mort de Charles le Chauve jusqu'au commencement du onzième siècle* Adolf Ebert, 1889 Music at the Maison royale de Saint-Louis at Saint-Cyr Deborah Kauffman, 2018-07-24 The history of music at the Maison royale de Saint Louis at Saint Cyr the famous convent school founded by Madame de Maintenon and established by Louis XIV in 1686 as a royal foundation is both rich and intriguing its large repertory of music was composed expressly for young female voices by important composers working within significant contemporary musical genres liturgical chant sacred motets theatrical music and cantiques spirituels While these genres reflect contemporary styles and trends at the same time the works themselves were made to conform to the sensibilities and abilities of their intended performers Even as Jean Baptiste Moreau s music for Jean Racine s biblical tragedies Esther and Athalie shows a number of similarities to contemporary trag dies lyriques it departs from that more public genre in its brevity generally simpler solo writing and the integral use of the chorus The musical style of the choral numbers closely parallels that of other choral music in the repertory at Saint Cyr The liturgical chant sung in the church was composed by Guillaume Gabriel Nivers and is an example of plain chant musical a type of new ecclesiastical composition written during the seventeenth and eighteenth centuries primarily for female religious communities in France The large repertory of petits motets short sacred Latin pieces for solo voice mostly composed by Nivers and Louis Nicolas Cl rambault are simpler and more restrained than works by their contemporaries A close study of the motets reveals much about changes to musical style and performance practices at Saint Cyr during the eighteenth century The cantique spirituel a song with a spiritual text in the vernacular French language played a significant role in both the education and recreation of the girls at Saint Cyr Cantiques composed for the girls vary widely in terms of their style and difficulty ranging from simple strophic melodies to more sophisticated works in the style of contemporary airs In all cases the stylistic features of the music for Saint Cyr reflect a careful consideration of the needs and capabilities of the young singers of the school as well as an awareness of the rigorous requirements of Madame de Maintenon who kept a close watch over the propriety of all things relating to the piety behavior and image of her charges *Le Chant de l'arabesque* Stéphanie Orace, 2005-01-01 Deux constats appliqu s l uvre de Claude Simon sont au fondement de cette tude En premier lieu il convient de donner toute sa force la conception simonienne de l criture comme fabrication en second lieu de mesurer l ampleur des chos tiss s de livre en livre et qui rigent lentement le portrait d une m moire Embrassant l ensemble des romans simoniens nous nous proposons d analyser les enjeux de ces retours aux manifestations prot iformes Intimement li e la po tique romanesque la r p titon ne l est pas moins de l imaginaire jamais reprise stricte l identique elle implique diff rence et variation Se donnent alors voir nombre de tensions constitutives qui travaillent l ensemble scriptural de la phrase l uvre enti re D s lors si la syntaxe tout autant que la structure tendent la circularit ce retour parfait que dessine le cercle est bient t

Re-exploring Canadian Space Jeanette M. L. den Toonder, Bettina van Hoven, 2012 A variety of productions and representations of Canadian identities are the central theme that runs through this book The different contributions explore imagined spaces by considering Canadian music poetry and novels they engage with political space by addressing various ways in which the people of Canada have made claims to different regions in the distant and recent past and they address lived spaces and their actual and symbolic meanings It is an unusual book as it encompasses the writings by those studying the arts and literature as well as writings by social scientists and it includes both English and French speaking scholars The richness that can be found in this multitude of perspectives and approaches to exploring Canadian space is characteristic of the way in which Canadian Studies is practiced nowadays It is therefore an appropriate volume to celebrate 20 years of Canadian Studies in the Netherlands
