book The 2022 3rd International Conference on Artificial Intelligence and Education ICAIE 2022 will be held in Chengdu China during June 24-26, 2022. The meeting focused on the new trends in the development of artificial intelligence and education under the new situation and jointly discussed how to empower and promote the high quality development of artificial intelligence and education. An ideal platform to share views and experiences with industry experts. The conference invites experts and scholars in the field to conduct wonderful exchanges based on their own research results based on the development of the times. The themes are around artificial intelligence technology and applications, intelligent and knowledge based systems, information based education, intelligent learning, advanced information theory and neural network technology, software computing and algorithms, intelligent algorithms and computing and many other topics.

Handbook of Research on Innovative Frameworks and Inclusive Models for Online Learning Keengwe, Jared, 2023-08-18. The Handbook of Research on Innovative Frameworks and Inclusive Models for Online Learning is edited by Jared Keengwe, an experienced professor in Curriculum Design and Instruction. This comprehensive reference guide offers academic scholars a collection of diverse frameworks from empirical studies, literature reviews, and case studies related to inclusive models for online learning. Covering a wide range of topics including pedagogical adaptations to online learning, innovative pedagogical theories, inclusive teaching and learning, and best practices in online course design, the handbook provides practical insights to achieve effective pedagogical outcomes grounded on sound theoretical frameworks. Whether you are an online educator, instructional designer, teacher, educator, librarian, student, online learning researcher, or educational manager, this handbook can serve as a valuable resource to guide your research design and practice in online learning. The Handbook of Research on Innovative Frameworks and Inclusive Models for Online Learning is a must read for academic scholars who want to stay updated on the latest research theories and models for effective online education.
