Parentonomics Joshua Gans, 2010-08-27 What every parent needs to know about negotiating incentives outsourcing and other strategies to solve the economic management problem that is parenting Like any new parent Joshua Gans felt joy mixed with anxiety upon the birth of his first child Who was this blanket swaddled small person and what did she want Unlike most parents however Gans is an economist and he began to apply the tools of his trade to raising his children He saw his new life as one big economic management problem and if economics helped him think about parenting parenting illuminated certain economic principles *Parentonomics* is the entertaining enlightening and often

hilarious fruit of his research Incentives Gans shows us are as risky in parenting as in business An older sister who is recruited to help toilet train her younger brother for a share in the reward given for each successful visit to the bathroom for example could give the trainee drinks of water to make the rewards more frequent Economics later offered another better toilet training solution outsourcing For their third child Gans and his wife put it in the hands of professionals the day care providers Gans gives us the parentonomic view of delivery if the mother shares her pain by yelling at the father doesn't it really create more aggregate pain sleep the screams of a baby are like an offer I'll stop screaming if you give me attention food a question of marketing travel the best thing you can say about traveling with children is that they are worse than baggage punishment and threat credibility birthday party time management and more Parents if you're reading Parentonomics in the presence of other people you'll be unable to keep yourself from reading the funny parts out loud And if you're reading it late at night and wake a child with your laughter well you'll have some guidelines for negotiating a return to bed

Richards, 2024-09-17 Her life is over yet somehow she carries on After attempting to sever all ties to her life as a hired assassin a woman struggles to understand who she has become She knows she doesn't want to kill again but it proves to be a difficult habit to break particularly in a world where people are after her and those she loves most Adrift and disconnected she meets an old woman Imogen O'Brien a world famous artist who has spent the last three decades living a hermit like existence on a rustic desert estate in a national forest Imogen invites her to stay and work for her offering mentorship in return as the woman deepens her own interest in art What quickly

Intimate Deception Dr. Sheri Keffer, 2018-03-20. Nothing destroys trust like sexual betrayal. Beyond broken vows, a woman who discovers that the man she loves has been viewing pornography or having an affair must deal with devastating blows to her self-image and self-worth. She must grapple with the fact that the man she thought she knew has lied and deceived her. She may even bear the brunt of shame and judgment when the people around her find out. Drawing from her experience both as a marriage and family therapist and a woman who personally experienced the devastation of sexual betrayal, Dr. Sheri Keffer walks women impacted by betrayal through the pain and toward recovery. She explains how the trauma of betrayal affects our minds, bodies, spirits and sexuality. She offers practical tools for dealing with emotional triggers and helps women understand the realities of sexual addiction. And she shows women how to practice self-care, develop healthy boundaries, protect themselves from abuse or manipulation and find freedom from the burden of shame and guilt. *Ski*, 1979-12.

The Role of Self and Adaptation in Learning and Development Daniel Rodriguez, 2024-02-13. This book introduces readers to Psychoadaptation, a general model of change that stresses the importance of experiencing disequilibrium in the development of a healthy Self and applies it to a range of examples across the academic, sport and health domains. Built upon his studies of human development and learning, Daniel Rodriguez offers an overview of a model of change with a specific focus on the development of Self and conceptions of Self. The author begins by focusing on academic topics such as conducting research, teaching and being a student, before highlighting examples from sport and health. With a clear and engaging tone, each chapter highlights how the theory behind Psychoadaptation can be applied across a variety of contexts and in the modern world. The result is a solid balance of scientific theory and practical application that readers can relate to their own circumstances and research. Offering a unique conceptualization to development, learning and behavior change, this is a useful resource for students and scholars within these areas as well as clinicians working in the fields of health and sport. It will also benefit individuals looking to embark upon their own journeys to Self-development. *Popular Science*, 1966-10.
