## **Myanmar The Dynamics Of An Evolving Polity:**

**Myanmar** David I. Steinberg, 2015 Myanmar's Peace Process and the Role of Middle Power States Chiraag Roy, 2022-06-06 This book explores middle power engagement in peace processes through the cases of Australian Japanese and Norwegian engagement in Myanmar's peace process a core event in Myanmar's contemporary recent political history The book asks to what extent and how middle powers have engaged in Myanmar's peace process as a form of peacemaking entrepreneurship Underpinning this study is a concern for the lack of clarity surrounding the middle power concept Traditional conceptions of middle powers steeped in idealist thinking locate such states as capable peacemakers without elucidating the motivations that drive middle powers to peacemaking beyond mere status seeking Drawing on recent fieldwork interviews from within Myanmar as well as political economy literature the author scrutinises this notion while concomitantly offering an incisive analysis of Myanmar's peace process Based on the Myanmar context the book argues that middle powers can better be conceptualised as peace making entrepreneurs as actors that use peacemaking as an instrumental tool to cement their status and craft an image which they can then trade upon to secure additional namely commercial benefits Significantly this notion of peacemaking entrepreneurship problematises core theoretical assumptions of middle powers as capable peacemakers presenting implications for future scholarship on middle powers A timely addition as Myanmar continues to grapple with its own future the book is located within the fields of International Relations and Development Studies It will be of interest to researchers studying Asian Studies Peace and Conflict Studies and Myanmar Politics

**The Paradox of Myanmar's Regime Change** Roger Huang, 2020-04-06 This book analyzes Myanmar's contemporary political history arguing that Myanmar's so called democratization has always been a calculated regime transition planned by the military with every intention that the military to remain the key permanent political actor in Myanmar's political regime Using the period since Myanmar's regime change in 2011 as an extended case study this book offers an original theory of regime transition The author argues that Myanmar's ongoing regime transition has not diverged from its authoritarian military roots and explains how the military has long planned its voluntary partial withdrawal from direct politics Therefore Myanmar's disciplined democracy contains features of democratic politics but at its core remains authoritarian Providing an original contribution to the theoretical literature on regime change by developing a theory of trial and error regime transition the book engages with and challenges the popular democratization theory by arguing that this theory does not sufficiently explain hybrid regimes or authoritarian durability Additionally the book adds to an alternative understanding of how the regime transition was initiated by examining the historical evolution of Myanmar's post colonial regime and offers a fresh perspective on contemporary political developments in Myanmar An important contribution to the study of authoritarian durability and the dynamics of regime change in Southeast Asia this book will be of interest to academic researchers of comparative politics international relations and Southeast Asian studies Crafting Parliament in

Myanmar's Disciplined Democracy (2011-2021) Renaud Egretieu, 2022-03-01 In January 2011 parliament was restored in Myanmar after two decades of military rule Startlingly it began to repeal obsolete laws scrutinize government expenditures summon ministers to the floor and discuss the state's annual budget It also allowed its elected representatives to make public the grievances collected from constituents infuriated at enduring practices of land confiscation petty corruption and everyday abuses of power Yet ten years later in February 2021 parliament was shut down again by a coup d'état What has been learned in the span of a decade of post junta parliamentary resurgence How could an elected legislature resurface and function in a country that had only limited experience with parliamentary affairs and representative politics since its independence from British rule What lessons can be drawn from the Myanmar case for parliamentary institution building and legislative developments and decay in post authoritarian and praetorian contexts This book offers a compelling account of Myanmar's halting efforts to develop the institutional framework and practice of a parliament based democratic governance between 2011 and 2021 It charts the stages of such a legislative resurgence tracing its causes and exploring how various institutional and political legacies both informed and constrained the re establishment and operations of the Union legislature or Pyidaungsu Hluttaw Embracing both ethnographic observations and a methodical engagement with legislative proceedings and historical material Renaud Egretieu investigates how parliamentary life re emerged in Myanmar in the 2010s His analysis concentrates on key legislative mechanisms processes and tasks pertaining to government oversight budgetary control representation and lawmaking and interrogates how they were learned re appropriated and mis performed by Myanmar's new breed of legislators and parliamentary staff until the 2021 army takeover

**Rising China's Influence in Developing Asia** Evelyn Goh, 2016 How powerful is China Is China powerful enough to change the world This book distinguishes between China's obviously growing economic political and military resources and how they are translated into actual influence over other states choices and policies It investigates China's influence on the small and weak developing countries in East and South Asia where China ought to have the biggest influence It shows that China tends to try to gain the support of these countries without forcing them to change their preferences or to act against their own interests but how much it succeeds is determined more by how these target countries policy makers react and by their domestic political considerations than by how skilful Chinese politicians or investors are China's influence even over these weakest states is not easily achieved suggesting that China has more difficulty exercising its newfound power in the world than we assume

of what to implement and what to avoid Loss of common property resources non recognition of customary rights ambiguous land laws and inadequate attention to people s grievances have led to a rural landscape which has witnessed livelihood vulnerability displacement and conflict The book not only tries to capture cross border experiences in order to have a better understanding of land alienation agrarian discontent and peripheral marginalization but also notes recent trends in rural spaces and suggests policy measures

**Rights Refused** Elliott Prasse-Freeman, 2023-09-05 For decades the outside world mostly knew Myanmar as the site of a valiant human rights struggle against an oppressive military regime predominantly through the figure of Nobel Peace Prize winner Aung San Suu Kyi And yet a closer look at Burmese grassroots sentiments reveals a significant schism between elite human rights cosmopolitans and subaltern Burmese subjects maneuvering under brutal and negligent governance While elites have endorsed human rights logics subalterns are ambivalent often going so far as to refuse rights themselves seeing in them no more than empty promises Such alternative perspectives became apparent during Burma's much lauded decade long transition from military rule that began in 2011 a period of massive change that saw an explosion of political and social activism How then do people conduct politics when they lack the legally and symbolically stabilizing force of rights to guarantee their incursions against injustice In this book Elliott Prasse Freeman documents grassroots political activists who advocate for workers and peasants across Burma covering not only the so called democratic transition from 2011 2021 but also the February 2021 military coup that ended that experiment and the ongoing mass uprising against it Taking the reader from protest camps to flop houses to prisons and presenting practices as varied as courtroom immolation occult cursing ceremonies and land reoccupations Rights Refused shows how Burmese subaltern politics compel us to reconsider how rights
