More than one billion people are believed to speak some form of English. Although the numbers vary, it is widely accepted that hundreds of millions of people around the world speak English, whether as a native second or a foreign language. English in some form has become the native or unofficial language of a majority of the countries around the world today. In 20 to 30 countries around the world, English is merging with native languages to create hybrid Englishes. This comprehensive study of Introducing Global Englishes is intended to be useful and popular among students because of the simplicity and directness of explanations of the various terms and concepts; its wealth of illustrative examples enables the reader to assimilate the content without being intimidated by its range and scope. Global Englishes and Change in English Language Teaching Nicola Galloway,2017-05-08 Global Englishes and Change in English Language Teaching analyses the impact of current ELT practice, bringing together research from the fields of Global Englishes and ELT to provide suggestions for the implementation of a Global Englishes for Language Teaching curriculum. Calling for a critical re-examination of ELT to ensure that classroom practice reflects how the English language functions as a lingua franca, this book highlights that multilingualism, not monolingualism, is the norm in today's globalised world and that non-native English speakers far outnumber native English speakers. It showcases the author's research into English language learner attitudes towards English and ELT in relation to Global Englishes, makes practical suggestions for pedagogical change within ELT. Global Englishes and Change in English Language Teaching is key reading for postgraduate students and researchers in the fields of TESOL, ELT and Global Englishes.

language and explores its role in intercultural and transcultural communication. It covers how English functions as a lingua franca in multilingual scenarios alongside other languages in a wide variety of global settings and the fluid and dynamic links between English, other languages and cultural identities and references. The implications for English language teaching (ELT) academia, business and digital communication are explored. Contemporary research and theory are presented in an accessible manner, illustrated with examples from current research and supported with discussions and tasks to enable students to relate these ideas to their own experiences, needs and interests. Each chapter contains activities to help students orientate towards the topic, reflect on personal experiences and opinions and check their understanding. Additionally, a detailed glossary of key terminology in Global Englishes and Intercultural Communication is provided.
