- **Multi-physics simulation**
success

Report highlights

Successfully is the overwhelming challenge today for product designers – making it harder to evaluate the impact of different design alternatives.

Without the right technical skills to implement modern technical collaboration solutions, throughout the product lifecycle and design process.

Simulation has become an essential element of modern product design and delivery, providing a platform for collaboration and integration.

Implementing a successful simulation platform solution today, across different business units, is a global challenge.

Despite the importance of simulation products, the rapid pace of change in the industry, with significant investment in simulation, is still a challenge for many companies. This includes the need to understand the impact of simulation on the product lifecycle, the importance of simulation in the product lifecycle, and the importance of simulation in the product lifecycle.
