**Is the Commission Still Great?** Steve Richardson, 2022-10-04 Dismantling the Myths that Obscure God's Great Plan The primary mission of the church is to glorify God by blessing all peoples of the world through the gospel of Jesus Christ The Great Commission's task of global disciple making is the most ambitious project ever undertaken Given the scale and complexity of global missions it's no wonder that misconceptions abound even among invested godly people Questions and skepticism about missions arise from both outside and inside the church Is missions an outdated idea Do missionaries do more harm than good Are we succeeding or failing Is it time for global believers to do the job in their own countries with minimal Western involvement We don't need to fear questions like these But we do need to seek and find solid biblical answers Is the Commission Still Great dismantles the myths that obscure God's beautiful plan to make disciples of all nations Misperceptions discourage God's people from joyfully participating with Him in reaching the world Yet deepening our understanding of the call to missions restores perspective and motivates us to participate in God's grand design Author and missionary kid Steve Richardson uses stories from Scripture history and his own ministry experience to impart timely lessons on modern missions Richardson also draws from the wisdom of field missionaries sending agencies pastors and church members to address this all important endeavor Each chapter finishes with thought provoking questions to facilitate purposeful discussion in families and small groups Is the Commission Still Great will equip followers of Christ to be participants not spectators in the redemption of the world

Parker,2025-02-10 A nuanced take on how carceral expansions are changing labor and social life In *Carceral Citizens* anthropologist Caroline M Parker offers an ethnographic portrait of therapeutic communities in Puerto Rico the oldest colony in the Americas As nonprofits nested within the carceral state therapeutic communities serve as reeducation and recovery centers for the mostly male drug offenders who serve out their sentences engaged in manual labor and prayer The most surprising aspect of these centers however is that their graduates often remain long after the completion of their term working as self appointed peer counselors in a mixture of volunteer and low wage positions Parker seeks to explain this dynamic by showing how in these therapeutic communities criminalized men find new and meaningful ways of living in the shadow of the prison Through their participation in the day to day functioning of the centers they discover and cultivate alternative forms of belonging livelihood and citizenship despite living within the restrictions of the carceral state Situating her study against the backdrop of Puerto Rico s colonial history and with findings that extend across Latin America Parker challenges common assumptions about confinement labor and rehabilitation By delving into lives shaped by the convergence of imperialism the carceral state and self help she offers a fresh understanding of the transformations of labor and social life brought about by mass incarceration **The Common Core Companion** Leslie Blauman,2015 [Innovation in the Arts](#) Jason C.
