 extensions of rewriting techniques that go beyond the traditional untyped algebraic rewriting framework have been  
 investigated and developed Among these extensions conditional and typed systems are particularly important as are higher  
 order systems graph rewriting systems etc The international CTRS Conditional and Typed Rewriting Systems workshops are  
 intended to offer a forum for researchers on such extensions of rewriting techniques This volume presents the proceedings of  
 the second CTRS workshop which contributed to discussion and evaluation of new directions of research The proceedings of  
 the first CTRS workshop are in Lecture Notes in Computer Science Vol 308 Several important directions for extensions of  
 rewriting techniques were stressed which are reflected in the organization of the chapters in this volume Theory of
