

KEY FEATURES

A unique integrated survey-grade L1 GPS receiver and rugged PDA solution

Field-proven and robust for tough surveying conditions

Trimble GPS technology for quality and confidence

Microsoft® Windows Mobile™ for Pocket PC operating system, the industry standard

The Trimble® R3 GPS system is a complete L1 GPS postprocessed solution from the industry leader in GPS surveying technology. Combining an L1 GPS receiver and antenna, rugged handheld controller, and easy-to-use field and office software, the Trimble R3 system brings precise sub-centimeter control to your site, establishes new localized control, and collects topographic data. The system operates without line-of-sight between points, and it can operate day or night in any weather.

A UNIQUE FORM FACTOR THAT WORKS AS HARD AS YOU DO

For the first time, the Trimble R3 system integrates a survey-grade receiver with the popular Trimble® Recon® controller, a proven, ultra-rugged PDA designed especially for tough surveying conditions. The compact and lightweight Trimble R3 system then handles drops, extreme temperatures, and water with ease, making it one of the toughest L1 GPS solutions available. It also spans just the expense of a separate GPS receiver.

The Trimble Recon offers many other innovative features to make your L1 GPS workflow easy and efficient: a large color touchscreen, expandable memory, and USB support to name a few.

A TOTAL SURVEYING SOLUTION FOR L1 GPS

The Trimble R3 GPS system contains the same proven Trimble Maxwell™ technology used in Trimble's advanced, dual-frequency GPS systems, so you can have complete confidence in the accuracy and quality of your results. Simply set up two or more systems to quickly establish a survey network and then log your data. Download the data to your PC for easy baseline processing.

The Trimble R3 system employs a similar workflow to the advanced Trimble Survey Controller™ software, the most popular GPS field solution in the surveying industry. Additionally, every component of the Trimble R3 system is designed and developed by Trimble to work together as a total surveying solution. The Trimble R3 thus offers the performance and reliability of an advanced system, while remaining an extremely cost-effective investment.

FAMILIAR, EASY-TO-USE SOFTWARE IN THE FIELD AND OFFICE

The Trimble R3 system runs the Microsoft Windows Mobile for Pocket PC operating system, which is the worldwide industry standard for PDAs. This means you can run additional specialized Pocket PC programs, including Pocket Word or Excel, making the Trimble R3 system very flexible and suitable for multiple uses.

Windows Mobile for Pocket PC also makes the Trimble R3 system very easy to use. New users have a very short learning curve on the operating system and Trimble® Digital Fieldbook™ field software because of the familiar options, menus, and terminology.

Trimble® Business Center office software is also designed to be intuitive and easy to learn. Even first-time users will experience effortless download, increased productivity, and superior quality control with minimal effort.
