

nocum etiam omnia tuas, si minus, quam plurimos; purga urbem. Magna res meta libertatibus, modo inter me atque te muros intersit. Nobiscum versari iam distius non potes; non feram, non patiar, non sinam.

V. As, then, this is the case, Catiline, continue as you have begun. Leave the city at least; the gates are open; depart. That Maelian camp of yours has been waiting too long for you as its general. And lead forth with you all your friends, or at least as many as you can; purge the city of your presence; you will deliver me from a great fear, when there is a wall between you and me. Among us you can dwell no longer—I will not bear it, I will not permit it, I will not tolerate it.

III. 3 Short Answers (from Time Line)

The orations from Our Cicero Timeline should be addressed this way:
For each of the orations provide a:

1. **Date**, i.e. when it was delivered
2. **Purpose**, i.e. why it was delivered
3. **Context**, i.e. under which circumstances was it delivered, what was the political climate, the point in Cicero's life.

Try to address Cicero both as a lawyer and as a person.

IV. 4 "De Cicero" Reflections

1. Give three situations (from the orations on the time line), one in his youth, one in his middle career, and one near the end of his life, in which Cicero acted on his principles even though this put him in great danger.
2. Give a character sketch of Quintus Cicero.
3. Perhaps the two greatest enemies of Cicero were Clodius Pulcher and Marc Antony. How did his speeches impel each of these men to try to destroy him? What did they do to him?
4. Discuss Augustus' evaluation of Cicero: "An eloquent man, my boy, and a lover of his country." In what ways is it a just evaluation?

Validity of Educational Assessments in Chile and Latin America Jorge Manzi, María Rosa García, Sandy Taut, 2021-09-11 This edited volume presents a systematic analysis of conceptual methodological and applied aspects related to the validation of educational tests used in Latin American countries Inspired by international standards on educational measurement and evaluation this book illustrates efforts that have been made in several countries to validate different types of educational assessments including student learning assessments measurements of non cognitive aspects in students teacher evaluations and tests for certification and selection It gathers the experience of validity studies from the main international assessments in Latin America PISA TIMSS ERCE and ICCS Additionally it shows the challenges that must be taken into account when evaluations are used to compare countries groups or trends of achievement over time The book builds on the premise that measurements in the educational field should not be used if there are no studies that support the validity of the interpretation of their scores or the use made of such tests It shows that despite the recognition given to validity relatively few educational measurement assessments have accumulated enough evidence to support their interpretation and use In doing so this volume increases awareness about the relevance of validity especially when assessments are key component of educational policies
