

**FIGURE 2.8**

Dialog boxes can be docked to the outer edge of the interface.

When a dialog box is open, you can collapse a dialog box so only its title bar is showing by clicking its title bar once. Clicking the title bar again expands the dialog box to its original size. Collapsed dialog boxes are marked in the Window menu with a small bar next to their names. Open dialog boxes have a check mark next to their menu names. Dialog boxes can be resized by clicking and dragging their edges or corners.

You can also snap dialog boxes to the top and bottom edge of any open dialog boxes to create a dialog box stack, as shown in Figure 2.9. All dialog boxes within the stack assume the width of the top dialog box. When you reposition the top dialog box, all dialog boxes in the stack move with it. Stacked dialog boxes can also be collapsed and expanded as needed.

The non-modeless dialog boxes in SketchUp include the File, Import, and Print dialog boxes that are accessed using the File menu. Other non-modeless dialog boxes include the Match New Photo, Preferences, and Ruby Console dialog boxes.

At the bottom of the Window menu is a command to Hide Dialogs. This command hides all open and collapsed dialog boxes and changes the command to Show Dialogs. When selected again, the hidden dialog boxes are made visible.
