USAF Instructors Journal, 1963 **USAF Instructor's Journal** United States. Air Force. Air Training Command, 1963 Automotive Technician Training: Theory Tom Denton, 2014-04-16 A blended learning approach to automotive engineering at levels one to three. Produced alongside the ATT online learning resources, this textbook covers all the theory and technology sections that students need to learn in order to pass levels 1, 2, and 3 automotive courses. It is recommended by the Institute of the Motor Industry and is also ideal for exams run by other awarding bodies. Unlike the current textbooks on the market, though, this title takes a blended learning approach using interactive features that make learning more enjoyable as well as more effective. When linked with the ATT online resources, it provides a comprehensive package that includes activities, video footage, assessments, and further reading. Information and activities are set out in sequence so as to meet teacher and learner needs as well as qualification requirements. Tom Denton is the leading UK automotive author with a teaching career spanning lecturer to head of automotive engineering in a large college. His nine automotive textbooks published since 1995 are bestsellers and led to his authoring of the Automotive Technician Training multimedia system that is in common use in the UK, USA, and several other countries.

Guide to Worldwide Maritime Training, 1993 **Instructors Journal**, 1964 **The Training Design Manual** Tony Bray, 2009-07-03 This workbook and the accompanying online resources provide a one-stop reference manual to designing and delivering a successful training course. Written in a practical and user-friendly style, The Training Design Manual provides both theory and practical exercises, guiding the reader through the total design process from start to finish. Theory and concepts are followed by practical application, and a blend of text and graphics appeals to a wide range of learning styles. Accompanying online material includes design templates which the reader can use to record ideas as they progress through the book so that by the end they will have a complete course design. Online supporting resources include dozens of activities, examples, and templates.
