STRETCHES

The Stretches, created to give Mathletes practice with specific subject areas, focus on the following areas:

Proportional Reasoning	Rates, Ratios and Fractions
3-D Geometry	Topics in Solid Geometry
Counting Combinatorics	Counting Techniques and Problems Involving Combinatorics

As part of the MATHCOUNTS coaching phase, the Stretches can be used to prepare Mathletes for more advanced problem-solving situations. They can be used prior to the Warm-Ups and Worksheets to introduce mathematical topics, or they can be used to teach and reinforce concepts after Mathletes have attempted the Warm-Ups and Worksheets. Finally, they can be used when preparing for competition to aid Mathletes with troublesome concepts.

Answers to the Stretches include one-letter codes, in parentheses, indicating appropriate problem-solving strategies. However, students should be encouraged to find alternative methods of solving the problems; their methods may be better than the one provided! The following strategies are used: C (Complete), F (Formula), M (Model/Diagram), T (Table/Chart/List), G (Guess & Check), S (Simpler Case), E (Eliminate) and P (Pattern).

MATHCOUNTS Symbols and Notation

Standard abbreviations have been used for units of measure. Complete words or symbols are also acceptable. Square units or cubic units may be expressed as units^2 or units^3 .
