

EUFEC INFINEON FZ1200R16KF4 FZ1200R17KF4 IGBT NEW OLD AND FAKE

The purpose of this document is to guide the reader regarding the current state of the FZ1200R17KF4 + FZ1200R16KF4 IGBT which are found on F35w and some shops selling this product as EUFEC in a form of light manufacturer sheet is the 1990's technology of Infineon Technologies. It is very popular and has been used as frequency inverter. In 2005, Infineon is integrated to Infineon. It is very hard to find this product nowadays as brand new and there are many light of this type and it is not listed after few years working of this product. This is what I found out.

The picture of the module is a good example of a new IGBT module. The module is a black, rectangular component with a white label in the center. The label contains the text 'Infineon FZ1200R16KF4', a barcode, and the number '45/21-1131'. The module is mounted on a metal base with two large, dark, rectangular heat sinks on either side. A red wire is visible on the left side of the module.
