**Michael Evans**

## **Foreign Language Learning With Digital Technology:**

**Brave New Digital Classroom** Robert J. Blake, Gabriel Guillén, 2020-02-20 Robert Blake now with Gabriel Guillén updates his successful book 1st ed 2008 2nd ed 2013 on how to teach foreign languages using technology Brave New Digital Classroom touches on all of the key concepts and challenges of teaching with technology focusing on issues specific to FLL or L2 learning and CALL Originally referred to as computer assisted language learning CALL has come to encompass any kind of learning that uses digital tools for language learning This edition reframes the conversation to account for how technology has been integrated into our lives Blake and Guillén address the ways technology can help with L2 how to choose the right digital tools how to use those tools effectively and how technology can impact literacy and identity The book is primed for use in graduate courses terminology is in bold and a comprehensive glossary is included each chapter finishes with a short list of references for further reading on the topic and discussion questions The authors provide short interview videos free via GUP website to enhance discussions on each chapter's topic Foreign Language Learning with Digital Technology Michael Evans, 2009-04-07 Provides a sustained and in depth qualitative analysis of the use of digital technology within the field of foreign language learning drawing on empirical evidence **Brave New Digital Classroom** Robert J. Blake, 2008 Brave New Digital Classroom deftly interweaves results of pedagogical research and descriptions of the most successful computer assisted language learning CALL projects to explore how technology can best be employed in the foreign language curriculum to assist the second language acquisition process Directed to all language teachers whether at the school or the postsecondary level with or without prior experience this book focuses on how to use new technologies effectively Blake urges teachers to move beyond a simple functional competence of knowing how to use the tools toward first a critical competence realizing what the various tools are good for and ultimately a rhetorical competence of knowing how the tools will help transform the learning environment This book examines the effective use of a range of technologies from Internet sites through computer mediated communication such as synchronous chatting and blogs to distance learning At the end of each chapter questions and activities demonstrate the interactionist learner centered pedagogy Blake espouses An invaluable reference for experienced researchers and CALL developers as well as those of limited experience Brave New Digital Classroom is also ideal for graduate level courses on second language pedagogy It will also be of interest to department chairs and administrators seeking to develop and evaluate their own CALL programs English Learning in the Digital Age Shuang Zeng, 2018-11-23 Moving beyond the Web 2.0 and digital native rhetoric this book addresses the complex experiences of learners of English as a foreign language EFL in a world embedded with interactive and participatory technologies Adopting a sociocultural perspective it investigates EFL learners' behaviours concerning digital technology and guides exploration into their contextually mediated choices and learning practices in the 2.0 era The argument is developed on the basis of the findings of a mixed sequential study that focused on 1485 Chinese undergraduates use and non use of

online tools and applications outside the English classroom Particular attention is paid to the role of context and agency when understanding their learning choices and behaviours in the context of digital technology In particular the book acknowledges the explanatory power of agency in the minority instances of good practices among these EFL learners At the same time it demonstrates that for most learners use of the current web is limited and mostly non interactive The barriers to 2 0 transfer are largely contextual and the so called communicative opportunities and participatory culture in particular did not fit into the learners sociocultural context of language learning Overall the compelling argument proposes that the technology facilitated changes in EFL practices are a bottom up process that is taking place in day to day situations and constrained by the learning context within which the learner is situated Based on these arguments the book provides a framework that challenges the existing beliefs about language learning with online technology and that contributes to our understanding of how context mediates EFL learners behaviours surrounding digital technologies It is a valuable resource for teachers researchers and policy makers providing them with insights into using digital technology to stimulate good learning practices outside the classroom

**Brave New Digital Classroom** Blake, Claire Kramsch, 2013-12-15 Brave New Digital Classroom examines the most effective ways to utilize technology in language learning The author deftly interweaves the latest results of pedagogical research with descriptions of the most successful computer assisted language learning CALL projects to show how to implement technology in the foreign language curriculum to assist the second language acquisition process Directed at elementary to postsecondary language teachers the book is ideal for graduate level courses on pedagogy and an invaluable reference for experienced researchers CALL developers and administrators This new enhanced ebook edition features the full text plus eight videos including three talks by the author an interview with Claire Kramsch on using the internet to teach culture Phil Hubbard on criteria for evaluating CALL software Rick Kern discussing telecollaboration and CMC exchanges with two students Gabriel Guill n on tandem learning and social networks and Paul Rama on games and gaming

*Recent Tools for Computer- and Mobile-Assisted Foreign Language Learning* Andujar, Alberto, 2019-10-25 The use of technological tools to foster language development has led to advances in language methodologies and changed the approach towards language instruction The tendency towards developing more autonomous learners has emphasized the need for technological tools that could contribute to this shift in foreign language learning Computer assisted language learning and mobile assisted language learning have greatly collaborated to foster language instruction out of the classroom environment offering possibilities for distance learning and expanding in class time Recent Tools for Computer and Mobile Assisted Foreign Language Learning is a scholarly research book that explores current strategies for foreign language learning through the use of technology and introduces new technological tools and evaluates existing ones that foster language development Highlighting a wide array of topics such as gamification mobile technologies and virtual reality this book is essential for language educators educational software developers IT consultants K 20 institutions principals

professionals academicians researchers curriculum designers and students      *Emerging Concepts in Technology-Enhanced Language Teaching and Learning* Zou, Bin, Thomas, Michael, Barr, David, Jia, Wen, 2022-01-21 For years language teachers have increasingly been using technologies of all kinds from computers to smartphones to help their students learn Current trends in TELTL technology enhanced language teaching and learning such as artificial intelligence virtual reality augmented reality gamification and social networking appear to represent major shifts in the digital language learning landscape However various applications of technology to mediate language learning may be informed by reflecting not only on the present but perhaps more importantly on relevant insights from past research and practice *Emerging Concepts in Technology Enhanced Language Teaching and Learning* explores the recent development of the new technologies for language teaching and learning to gain insights into and synergy of the theories pedagogies technological design and evaluation of TELTL environments for comprehending the trends and strategies of the new digital era as well as investigate the possibility of future TELTL research direction The book includes trends shaped by contemporary issues such as the COVID 19 pandemic Covering topics such as digital education tools L2 learnings and sentiment analysis this book serves as an essential resource for researchers language teachers educational software developers administrators IT consultants technologists professors pre service teachers academicians and students      Task-Based Language Learning in a Real-World Digital Environment Paul Seedhouse, 2017-02-09 How can you use the latest digital technology to create an environment in which people can learn European languages while performing a meaningful real world task and experiencing the cultural aspect of learning to cook European dishes This book explains how to do this from A to Z covering how a real world digital environment for language learning was designed built and researched The project makes language learning motivational and fun by tapping into people s interest in both cooking and technology you can learn a language while cooking and interacting with a speaking digital kitchen The kitchens provide spoken instructions in the foreign language on how to prepare European cuisine Digital sensors are inserted in or attached to all the kitchen equipment and ingredients so the digital kitchen detects what learners are doing and gives them feedback Learners are also able to communicate with the kitchens and can ask for help via photos and videos if they don t understand any foreign language words Based on two research grants the book provides five research studies showing the learning experiences of users in five European countries The book explains the principles and procedures involved in the project enabling others to design and implement a real world digital learning environment in the same way It includes numerous photographs of the system in use and evidence of how and what 250 users actually learnt      **New Technological Applications for Foreign and Second Language Learning and Teaching** Kruk, Mariusz, Peterson, Mark, 2020-03-13 Population diversity is becoming more prevalent globally with increasing immigration emigration and refugee placement These circumstances increase the likelihood that a child will be raised speaking a different language in the home than the common language used in each country This necessitates the

development of comprehensive strategies that promote second language learning through the adoption of new technological advancements New Technological Applications for Foreign and Second Language Learning and Teaching is a scholarly publication that explores how the latest technologies have the potential to engage foreign and second language learners both within and outside the language classroom and to facilitate language learning and teaching in the target language Highlighting a range of topics such as learning analytics digital games and telecollaboration this book is ideal for teachers instructional designers curriculum developers IT consultants educational software developers language learning specialists academicians administrators professionals researchers and students      Technology-Enhanced Language Teaching and Learning Karim Sadeghi, Michael Thomas, Farah Ghaderi, 2023-02-23 The Covid 19 pandemic has directly impacted the way teachers and learners worldwide teach and learn languages forcing numerous educational activities in technologically deprived contexts to stop altogether and those in technologically rich environments to go online on an emergency basis This volume provides a collection of theoretical and practical insights into the challenges and affordances faced globally during the pandemic and lessons learnt about the application of digital technologies for language teaching and learning The chapters explore the vital role of technology in its various forms including the internet social media CALL Computer Assisted Language Learning MALL Mobile Assisted Language Learning TALL Technology Assisted Language Learning and TELL Technology Enhanced Language Learning Topics explored include the new avenues digital technology has opened up for language teachers and learners options and challenges in applying technology in various contexts and how the second language education industry could have been adversely impacted at the time of the pandemic without technological affordances The contributions showcase studies from various geographical contexts revealing how the global crisis was received and tackled differently in Australia Hong Kong Iran Italy Japan New Zealand the UAE the UK and the USA
