Manual Leslie A. King, 2018-06-20 Integrating Lecture and Lab A General Biology Laboratory Manual is designed for biology
majors and can be used in conjunction with many different lower division biology textbooks The user friendly manual
encourages students to think of lecture and lab as a cohesive unit by requiring them to use the information they are learning
in lecture and the material presented in the manual including standard experiments to complete assignments Laboratory
topics include prokaryotes protists land plants fungi animals digestion blood and circulation reproduction and the nervous
system Because classification of organisms can vary among textbooks many formal taxa have been eliminated from this
manual making it usable with a variety of lower division biology texts Classroom tested Integrating Lecture and Lab helps
biology students successfully apply information they learn in their lectures Leslie A King earned her M A in physiology from
San Francisco State University and is instructor of biology at the University of San Francisco where she teaches courses in
general biology human physiology and comparative animal physiology Her writing draws upon over 25 years of teaching
experience as well as supervising undergraduate biology laboratory sections and laboratory instructors GENERAL
