S. Bielo, 2011 *The Emerging Church* movement developed in the mid 1990s among primarily white urban middle class pastors and laity who were disenchanted with America's conservative Evangelical sub culture. It is a response to the increasing divide between conservative Evangelicals and concerned critics who strongly oppose what they consider overly slick corporate and consumerist versions of faith. A core feature of their response is a challenge to traditional congregational models often focusing on new church plants and creating networks of related house churches. Drawing on three years of ethnographic fieldwork, James S. Bielo explores the impact of the Emerging Church movement on American Evangelicals. He combines ethnographic analysis with discussions of the movement's history, discursive contours, defining practices, cultural logics, and contentious interactions with conservative Evangelical critics to rethink the boundaries of Evangelical as a category. Ultimately, Bielo makes a novel contribution to our understanding of the important changes at work among American Protestants and illuminates how Emerging Evangelicals interact with the cultural conditions of modernity, late modernity, and visions of postmodern Christianity. James S. Bielo is Visiting Assistant Professor of Anthropology at Miami University in Oxford, OH. He is the author of *Words Upon the Word: An Ethnography of Evangelical Group Bible Study* (NYU Press) and editor of *The Social Life of Scriptures: Cross-cultural Perspectives on Biblicalism*.

The Feminist Care Tradition in Animal Ethics
Josephine Donovan, Carol J. Adams, 2007. In *Beyond Animal Rights*, Josephine Donovan and Carol J. Adams introduced feminist ethic of care theory into philosophical discussions of the treatment of animals. In this new volume, seven essays from *Beyond Animal Rights* are joined by nine new articles, most of which were written in response to that book and a new introduction that situates feminist animal care theory within feminist theory and the larger debate over animal rights. Contributors critique theorists' reliance on natural rights doctrine and utilitarianism, which they suggest have a masculine bias. They argue for ethical attentiveness and sympathy in our relationships with animals and propose a link between the continuing subjugation of women and the human domination of nature. Beginning with the earliest articulation of the idea in the mid 1980s and continuing to the theory's most recent revisions, this volume presents the most complete portrait of the evolution of the feminist care tradition. *The Michigan Journal*, 2007.

The Poor Will Be Glad Peter Greer, Phil Smith, 2009-10-20. This eminently practical book challenges the church to shift tactics in the battle against spiritual and physical poverty and equips ordinary Christians to translate their compassion into thoughtful action. Authors Peter Greer and Phil Smith examine the pitfalls of traditional approaches to reducing poverty. Then, through real-life stories and insight born of personal experience in serving the poor, they outline a new model of economic development based on proven solutions for effectively reducing poverty. They demonstrate how microfinance and employment-based solutions free people from the cycle of dependency, helping them regain their dignity and provide for their families. Blending passion with practicality, they show readers who share God's heart for the poor how to reorient their efforts from giving handouts to offering a hand up, paving the way for local initiative and ownership. By highlighting poverty-fighting methods for small groups and churches along with

workable steps for individuals to pursue The Poor Will Be Glad sounds a compelling call to carry God's justice, mercy, and compassion to the hurting people of this world.
