Women and Men in Political and Business Elites Mino Vianello,Gwen Moore,2004-09-18 Awarded the Descartes Prize 2004 of the European Commission How do gender inequalities translate at the top of politics and business Is the gender gap eliminated for the most influential players in industrial democratic society This informed and compelling analysis examines the demographic characteristics family circumstances and career paths of a group of elite women The book is noteworthy for being one of the first empirically based studies of women elites Drawing on a sample from no less than 27 countries a convincing and highly original picture is constructed that informs readers of career paths values social networks and gender battles for women elites Co ordinated by Mino Vianello and Gwen Moore the research fills in a huge gap about how power actually operates in industrial democratic societies It enables us to test the view that substantial equality between the sexes

has been achieved in the twenty first century It constitutes a landmark work both in the study of gender difference and the analysis of power The findings will be of interest to academics and advanced students in a wide range of disciplines including stratification globalization political science international relations gender sociology organizational studies and much more

Organizational Culture and Social Equity Stephanie Dolamore,Angela Kline,2023-06-01 Social equity or the lack of social equity is practiced in all of our organizations By focusing on advancing social equity in organizational culture public and non profit organizations can create more inclusive operations correct historical injustices and fulfill their mission to serve the community Social equity is often explored as a grand theory but it is critical for organizations to identify and practice strategies to apply theory into action Organizational Culture and Social Equity An Experiential Guide is the first book of its kind to provide the public service minded reader with an opportunity to practice social equity The chapters are designed to be both theoretical and practical helping the reader develop knowledge to analyze social equity efforts in their own organization as well as the tools to act The contributing chapter authors in this book explore social equity through various dimensions of organizational culture physical characteristics and general environment policies procedures and structures socialization leadership behavior rewards and recognition discourse and learning and performance Each contributor provides a thorough overview of their respective culture category along with important theories and concepts definitions and strategies for practice The chapter authors then examine social equity in each area of organizational culture through a learning activity discussion questions and a call to action Each chapter further reinforces concepts with a vignette featuring a public administrator who has faced a situation related to that chapter Organizational Culture and Social Equity is a timely and essential read for all those who wish to study or practice public administration through an equity lens **School**

Culture Development in China - Perceptions of Teachers and Principals Kai Yu,Xiangyun Du,Xiaoju Duan,2022-09-01 School culture is playing an increasingly important role in school performance and educational development Within the national campaign in China for the innovative and sustainable development of education local governments in Beijing Municipality have encouraged and facilitated educational innovation toward better school culture In recent years various initiatives have been undertaken by a select group of schools to develop strategies and further action toward innovation and change This book documents an investigation of how teachers and principals perceive school culture development in China A survey was conducted among 1 992 informants from 37 schools located in four different districts in Beijing Municipality The results of this study indicated that the respondents had overall positive perceptions of school culture construction and development in the educational change process In general they showed a positive attitude toward the school culture improvement initiatives reported satisfaction about their current school culture and held confidence in the direction their school culture is heading The study demonstrated that certain factors such as school geographical location and respondents job duty job title and gender make a difference in how participants perceive their school s culture Teachers and principals

from a less economically developed district had less awareness of involvement in and understanding of school culture development in all its aspects A notable gap between teachers and principals was identified in their perception of the core values and norms of the school and of communication between teachers and principals This study suggests that for educational development to be further carried forward successfully there is an urgent need for better distribution of educational resources both financial and leadership common understanding agreed upon goals and efficient communication between principals and teachers

Moral Leadership Cam Caldwell, 2012-09-21 The challenge facing leaders in the 21st century is to restore stakeholder trust build employee commitment and create organizations that are able to sustain long term competitive advantage Great leadership combines both character and competence but corporate values must include excellence and quality as well as integrity and honesty Creating organizational systems that reinforce and support core values and that achieve outstanding performance must be founded upon principles that work on the street in the office and on the shop floor Ethical leadership that honors a commitment to world class standards is a mandatory requirement for today's incredibly competitive global business environment but ethical leadership encompasses far more than avoiding polluting the environment or misrepresenting product features to customers This book clarifies the duties and obligations that leaders owe to their many stakeholders as they seek to create long term wealth but it also provides insights about how to build the organizational culture and systems required to sustain highly ethical organizations that inspire commitment and compete successfully

Emotions and Leadership in Organizations and Educational Institutes Osman Titrek, Anna Stavicka, Ana Campina, Gozde Sezen-Gultekin, Carlos Francisco De Sousa Reis, 2023-11-28 Emotion management is an important source of social capital and synergy for organizations Managers have a great role in the creation of this synergy A manager who can cope with their emotions indirectly contributes to organizational effectiveness This situation is especially important in human oriented organizations providing services rather than goods such as educational institutions Leadership is a process of social influence which maximizes the efforts of others towards the achievement of a goal Leadership stems from social influence rather than authority or power In terms of system approach the input output process and feedback of educational organizations are always related to human behaviors Therefore organizations must address the nature of human beings in all of their managerial processes Although organizations in which people are at the foreground try to continue their functioning on a rational and formal basis throughout the managerial process they sometimes have to manage emotional and informal phenomena In this case there is a need for managers and school leaders who can shape the rationale in line with the requirements of human nature What is expected from this administrator is that they do not ignore

human needs and emotions while providing the management of educational institutions For this reason these managers should be leaders rather than executives who only work in a formal framework of organization management Moreover principals and teachers should also be leaders in all educational processes Emotions are the main catalyst of positive organizational culture Leaders can create an effective organizational culture with the main source of positive emotions between employers Positive emotions also motivate employees for organizational purposes If a leader wishes to create and maintain an effective organizational culture it is essential to support positive behavior and emotional climate in their institutes and schools Leaders school managers and teachers therefore need to develop emotion management abilities Educational organizations need to shape their organizational culture climate and psychology to support their leaders in efficiently managing their employees emotions Up to now this topic has been usually addressed as the main catalyst and a sub dimension of emotional intelligence Moreover current evidence classifies social and empathy skills as other sub dimensions of emotional intelligence For this reason this collection of peer reviewed articles will draw attention to the contemporary term emotional management and contribute to educational fields by means of exploring the relationship between emotions and leadership *The Oxford Handbook of Leadership and Organizations* David Day,2014-05-20 As the leadership field continues to evolve there are many reasons to be optimistic about the various theoretical and empirical contributions in better understanding leadership from a scholarly and scientific perspective The Oxford Handbook of Leadership and Organizations brings together a collection of comprehensive state of the science reviews and perspectives on the most pressing historical and contemporary leadership issues with a particular focus on theory and research and looks to the future of the field It provides a broad picture of the leadership field as well as detailed reviews and perspectives within the respective areas Each chapter authored by leading international authorities in the various leadership sub disciplines explores the history and background of leadership in organizations examines important research issues in leadership from both quantitative and qualitative perspectives and forges new directions in leadership research practice and education
