### **Formal Ontology in Information Systems**

Carola Eschenbach, Michael Gruninger, 2008 Since its start ten years ago the International Conference in Formal Ontology on Information Systems FOIS has explored the multiple perspectives on the notion of ontology that have arisen from such diverse research communities as philosophy logic computer science cognitive science linguistics and various scientific domains As ontologies have been applied in new and exciting domains such as the World Wide Web bioinformatics and geographical information systems it has become evident that there is a need for ontologies that have been developed with solid theoretical foundations based on philosophical linguistic and logical analysis Similarly there is also a need for theoretical research that is driven by the issues that have been raised by recent work in the more applied domains FOIS is intended to be a forum in which to explore this interplay between the theoretical insights of formal ontology and their application to information systems and emerging semantic technologies Themes emerging from this volume give a snapshot of current issues within the fields of formal ontology and ontological engineering as well providing a glimpse of future research directions

### **Passages**

**Level 2 Full Contact** Jack C. Richards, Chuck Sandy, 2014-09-04 Passages Third Edition is a two level multi skills course that will quickly and effectively move adult and young adult learners of English from high intermediate to the advanced level The Full Contact version includes the complete Student Book Workbook and Video Activity Worksheets in one convenient book

**Passages Level 2 Full Contact A** Jack C. Richards, Chuck Sandy, 2014-09-04 Passages Third Edition is a two level multi skills course that will quickly and effectively move adult and young adult learners of English from high intermediate to the advanced level Full Contact A comprises the first half Units 1 6 of the complete Level 2 Student's Book and includes the corresponding pages from the Workbook and Video Activity Worksheets in one convenient book *Passages Level 2 Student's Book A* Jack C. Richards, Chuck Sandy, 2014-07-03 Passages Third Edition is a two level multi skills course that will quickly and effectively move adult and young adult learners of English from high intermediate to the advanced level Student's Book A comprises the first half Units 1 6 of the complete Level 2 Student's Book Each of the Passages Third Edition Student's Books have been updated to offer fresh contemporary content relevant speaking and listening activities comprehensive grammar and vocabulary support enhanced reading skills development and a step by step academic writing strand Frequent communication reviews will systematically consolidate learning while the popular Grammar Plus and new Vocabulary Plus sections in the back of the Student's Book provide additional skills support Molecular Mechanisms of Drug Resistance And Strategies of Sensitization in Breast Cancer, 2nd edition Yan Cheng, Jin-Ming Yang, Ceshi Chen, Yi Zhang, 2024-01-11 Basic scientific background Breast cancer is one of the most common cancer and the most frequent cause of cancer death among women worldwide Currently subtyping breast cancers into hormone receptor HR positive human epidermal growth factor receptor 2 overexpressing HER2 and triple negative breast cancer TNBC is the basis of diagnosing and treating this disease The main treatment strategies for breast cancer include surgery endocrine therapy molecular targeted therapy chemotherapy radiotherapy immunotherapy and gene therapy However resistance of breast cancer cells to chemotherapeutic agents molecular targeted therapies and immunotherapy may occur either intrinsically or de nova and is often ultimately responsible for treatment failure Therefore drug resistance poses a major challenge to breast cancer treatment Current developments Drug resistance in breast cancer is a complex clinical condition originating from a wide range of molecular alterations The development of endocrine therapy resistance is believed to be associated with many cellular changes such as ESR1 gene mutations bypassing estrogen signaling pathway and altered tamoxifen metabolism Meanwhile changes in immune response alternation of drug binding property and downstream pathways are involved in the mechanisms of drug resistance in HER2 breast cancer In addition resistance to chemotherapeutic agents predominantly arises from increased drug efflux and cross resistance Current studies suggest that treatment strategies and therapeutics have to be designed specifically to each patient in different clinical situations The use of modern genomic proteomic and functional analytical techniques has contributed to identify novel genes and signaling networks involved in breast cancer drug resistance Moreover the use of high throughput techniques in combination with bioinformatics and systems biology approaches has aided the interrogation of clinical samples and allowed the identification of molecular signatures and genotypes that predict responses to certain drugs Despite much progress has been made in the field of breast cancer drug resistance such as

combination therapy and drug loaded nanoparticles the complexity and variability of drug resistance mechanism still inevitably lead to the continuous occurrence of drug resistance Therefore with the increasing amounts of anti breast cancer agents there are now unprecedented opportunities to understand and overcome drug resistance through further research into mechanisms and corresponding strategies which will help achieve lasting disease control and bring survival benefits to patients with advanced cancer Papers of interest The current Research Topic of Frontiers in Pharmacology focuses on publishing Original Research Review articles and Case Reports focusing on a elucidating mechanisms of drug resistance in breast cancer target mutations tumor microenvironment undiscovered genes and signaling pathways b promising drug delivery systems that can enhance the sensitivity of anti breast cancer agents to various tumors c strategies that can improve patient care during bio chemotherapeutic treatments d small molecule compounds that are effective against drug resistant breast tumors e biomarkers of chemotherapy resistance in breast cancer patients and f in vitro and in vivo models Guidelines for article of submission Authors must stick to the set guidelines for ethical practices by the Frontiers journals The main content of the article must have certain innovation and research significance The authors should describe the construction method of drug resistant cell lines when using them for experiments in the article *English Panorama 1 Teacher's Book* Felicity O'Dell,1997-10-16 English Panorama 1 is the first part of a two level general English course for adult and young adult learners at post First Certificate level It will be used by those who wish to pursue their English studies for professional or academic reasons or for personal enjoyment Each unit focuses on a different genre or style of written or spoken English and grammar structures are studied in the context of these different styles Integrated vocabulary practice concentrates on collocations idioms and word building and study skills sections are included to promote effective study habits As well as giving detailed teaching notes on all the activities in the Student s Book the Teacher s Book contains transcripts of the listening material answer key and supplementary photocopiable revision exercises with at least one exercise relating to each unit *Chapter Resource 10 How Proteins/Made Biology* Holt Rinehart & Winston,Holt, Rinehart and Winston Staff,2004

**Exploring Psychology, Sixth Edition, in Modules Study Guide** Richard O. Straub,2004-12-06 For every major content section longtime author Richard Straub has divided each module by major topic each section includes a Preview objectives that require short answers and Stepping Through the Section which include detailed fill in the blank questions The Study Guide also includes self tests critical thinking exercises vocabulary and language activities Internet activities and crossword puzzles *Passages Level 2 Student's Book B* Jack C. Richards,Chuck Sandy,2014-07-03 Passages Third Edition is a two level multi skills course that will quickly and effectively move adult and young adult learners of English from high intermediate to the advanced level Student s Book B comprises the second half Units 7 12 of the complete Level 2 Student s Book Each of the Passages Third Edition Student s Books have been updated to offer fresh contemporary content relevant speaking and listening activities comprehensive grammar and vocabulary support enhanced reading skills development and a

step by step academic writing strand Frequent communication reviews will systematically consolidate learning while the popular Grammar Plus and new Vocabulary Plus sections in the back of the Student s Book provide additional skills support
