Birds, Peace, Wealth Aristophanes, 2013 THREE PLAYS TRANSLATED BY WAYNE AMBLER AND THOMAS L PANGLE In these three raucous comedies mortals outwit and even replace Zeus and other Olympian deities of the Greek Pantheon As Aristophanes provokes laughter at the foibles of gods and men he arouses wonder at our human need for the divine The three comic heroes in the plays included here raise the questions of whether there are

gods who they might be how powerful they are and how they might be changed or eliminated Although the precise form of such questions changes from age to age these are questions that are inseparable from political life and they certainly are powerfully present in our own day great theorists and architects of the modern liberal state designed its contours partly with an eye on the goal of diminishing the role of religion in the public square Not unlike our three comic heroes they wanted to reduce dependence on Zeus and his priests In his place and like our three heroes they sought peace wealth and human rulers liberated from exaggerated piety And nowadays the so called New Atheists are pressing the case that it is high time for a final defeat and elimination of the powers of darkness that in their view have cost us so much blood and treasure

Aristophanes was not a modern liberal still less would he agree with the New Atheists advocacy of universal public atheism He does however put dissatisfaction with the gods at the center of the three plays included here does bestow victories on the human critics of those gods and does invite us to think with him about the justice of their causes the tactics behind their victories and the limits of their successes From the Introduction UNLOCKING THE DREAM VISION R.J.
