Emerging Evangelicals James S. Bielo, 2011-10. The Emerging Church movement developed in the mid 1990s among primarily white urban middle class pastors and laity who were disenchanted with America's conservative Evangelical sub culture. It is a response to the increasing divide between conservative Evangelicals and concerned critics who strongly oppose what they consider overly slick corporate and consumerist versions of faith. A core feature of their response is a challenge to traditional congregational models often focusing on new church plants and creating networks of related house churches. Drawing on three years of ethnographic fieldwork, James S. Bielo explores the impact of the Emerging Church movement on American Evangelicals. He combines ethnographic analysis with discussions of the movement's history, discursive contours, defining practices, cultural logics, and contentious interactions with conservative Evangelical critics to rethink the boundaries of Evangelical as a category. Ultimately, Bielo makes a novel contribution to our understanding of the important changes at work among American Protestants and illuminates how Emerging Evangelicals interact with the cultural conditions of modernity, late modernity, and visions of postmodern Christianity.

Blending passion with practicality, they show readers who share God's heart for the poor how to reorient their efforts from giving handouts to offering a hand up, paving the way for local initiative and ownership. By highlighting poverty fighting methods for small

groups and churches along with workable steps for individuals to pursue The Poor Will Be Glad sounds a compelling call to carry God's justice, mercy and compassion to the hurting people of this world
