Ethics Technology Controversies Questions Strategies:

Ethics and Technology Herman T. Tavani, 2011 Offering insights and coverage of the field of cyberethics this book introduces readers to issues in computer ethics The author combines his years of experience in the field with coverage of concepts and real world case studies *The Routledge Handbook of Research Methods in the Study of Religion* Steven Engler, Michael Stausberg, 2021-11-29 This substantially revised second edition of The Routledge Handbook of Research Methods in the Study of Religion remains the only comprehensive survey in English of methods and methodology in the discipline Designed for non specialists and upper undergraduate graduate level students it discusses the range of methods currently available to stimulate interest in unfamiliar methods and enable students and scholars to evaluate methodological issues in research The Handbook comprises 39 chapters 21 of which are new and the rest revised for this edition A total of 56 contributors from 10 countries cover a broad range of topics divided into three clear parts Methodology Methods Techniques The first section addresses general methodological issues including comparison research design research ethics intersectionality and theorizing analysis The second addresses specific methods including advanced computational methods autoethnography computational text analysis digital ethnography discourse analysis experiments field research grounded theory interviewing reading images surveys and videography The final section addresses specific techniques including coding focus groups photo elicitation and survey experiments Each chapter covers practical issues and challenges theoretical bases and their use in the study of religion s illustrated by case studies The Routledge Handbook of Research Methods in the Study of Religion is essential reading for students and researchers in the study of religion s as well as for those in related disciplines *Communication and Technology* Lorenzo Cantoni, James A. Danowski, 2015-08-31 The primary goal of the Communication and Technology volume 5th within the series Handbooks of Communication Science is to provide the reader with a comprehensive compilation of key scholarly literature identifying theoretical issues emerging concepts current research specialized methods and directions for future investigations The internet and web have become the backbone of many new communication technologies often transforming older communication media through digitization to make them compatible with the net Accordingly this volume focuses on internet web technologies The essays cover various infrastructure technologies ranging from different kinds of hard wired elements to a range of wireless technologies such as WiFi mobile telephony and satellite technologies Audio visual communication is discussed with reference to large format motion pictures medium sized television and video formats and the small screen mobile smartphone There is also coverage of audio only media such as radio music and voice telephony text media in such venues as online newspapers blogs discussion forums and mobile texting and multi media technologies such as games and virtual reality **Critical Theory and Social Media** Thomas Allmer, 2015-04-10 Social media platforms such as Facebook YouTube and Twitter are enormously popular they are continuously ranked among the most frequently accessed websites worldwide However there are as yet few studies

which combine critical theoretical and empirical research in the context of digital and social media The aim of this book is to study the constraints and emancipatory potentials of new media and to assess to what extent digital and social media can contribute to strengthen the idea of the communication and network commons and a commons based information society Based on a critical theory and political economy approach this book explores the foundational concepts of a critical theory of media technology and society users knowledge attitudes and practices towards the antagonistic character and the potentials and risks of social media whether technological and or social changes are required in order to bring about real social media and human liberation Critical Theory and Social Media examines both academic discourse on and users responses to new media making it a valuable tool for international scholars and students of sociology media and communication studies social theory new media and information society studies Its clear and interesting insights into corporate practices of the global new media sector will mean that it appeals to critical social media users around the world

A History of Participation in Museums and Archives Per Hetland, Palmyre Pierroux, Line Esborg, 2020-03-17 Traversing disciplines A History of Participation in Museums and Archives provides a framework for understanding how participatory modes in natural cultural and scientific heritage institutions intersect with practices in citizen science and citizen humanities Drawing on perspectives in cultural history science and technology studies and media and communication theory the book explores how museums and archives make science and cultural heritage relevant to people s everyday lives while soliciting their assistance and participation in research and citizen projects More specifically the book critically examines how different forms of engagement are constructed how concepts of democratization are framed and enacted and how epistemic practices in science and the humanities are transformed through socio technological infrastructures Tracking these central themes across disciplines and research from Europe Canada Australia and the United States the book simultaneously considers their relevance for museum and heritage studies A History of Participation in Museums and Archives should be essential reading for a broad academic audience including scholars and students in museum and heritage studies digital humanities and the public communication of science and technology It should also be of great interest to museum professionals working to foster public engagement through collaboration with networks and local community groups

Digital Ethics Christian Fuchs, 2022-10-20 This fifth volume in Christian Fuchs's Media Communication and Society series presents foundations and applications of digital ethics based on critical theory. It applies a critical approach to ethics within the realm of digital technology. Based on the notions of alienation, communication in justice, media in justice, and digital in justice, it analyses ethics in the context of digital labour and the surveillance industrial complex, social media research ethics, privacy on Facebook, participation, co-operation, and sustainability in the information society, the digital commons, the digital public sphere, and digital democracy. The book consists of three parts. Part I presents some of the philosophical foundations of critical humanist digital ethics. Part II applies these foundations to concrete digital ethics case studies. Part III presents broad conclusions about how to advance the digital commons, the digital public sphere, and digital democracy, which is the ultimate goal of digital ethics. This book is essential reading for both students and researchers in media culture, communication studies, and related disciplines.

Ethical Frameworks in Special Education: A Guide for Researchers (Volume 2nd) Ravindra Kumar Kushwaha, Pradeep Kumar Yadav, Dr. Jooli Sonker, Anukampa Devi, 2024-09-12 Ethical Frameworks in Special Education: A Guide for Researchers Volume 2nd is an essential edited volume that navigates the complex ethical landscape of special education research. This guide provides a comprehensive overview of ethical principles and considerations unique to the field, emphasizing the importance of respecting the rights and dignity of individuals with disabilities. Each chapter offers practical insights and case studies addressing topics such as informed consent, confidentiality, and the balancing of risks and benefits. The book is an invaluable resource for researchers committed to conducting ethical, responsible, and impactful studies that advance knowledge and practice in special education.
