Expect Us Jessica L. Beyer,2014-07-03 People use online social forums for all sorts of reasons including political conversations regardless of the site s main purpose But what leads some of these people to take their online political activity into the offline world of activism In *Expect Us* Jessica L Beyer looks at political consciousness and action in four communities each born out of chaotic online social spaces that millions of individuals enter spend time in and exit moment by moment Anonymous 4chan IGN World of Warcraft and The Pirate Bay None of these sites began as places for political organization per se but visitors to each have used them as places for political engagement to one degree or another Beyer explains the puzzling emergence of political engagement in these disparate social spaces and offers reasons for their varied capacity to generate political activism Her comparative ethnography of these four online communities demonstrates that the technological organization of space itself has a strong role in determining the possibility of political mobilization Overall she shows that political mobilization rises when a site provides high levels of anonymity low levels of formal regulation and minimal access to small group interaction Furthermore her findings reveal that young people are more politically involved than much of the civic engagement literature suggests *Expect Us* offers surprising and

compelling insights for anyone interested in understanding which factors and online environments lead to the greatest amount of impact offline

Virtually Sacred Robert M. Geraci, 2014-06-13 Millions of users have taken up residence in virtual worlds and in those worlds they find opportunities to revisit and rewrite their religious lives Robert M Geraci argues that virtual worlds and video games have become a locus for the satisfaction of religious needs providing many users with devoted communities opportunities for ethical reflection a meaningful experience of history and human activity and a sense of transcendence Using interviews surveys and his own first hand experience within the virtual worlds Geraci shows how World of Warcraft and Second Life provide participants with the opportunity to rethink what it means to be religious in the contemporary world Not all participants use virtual worlds for religious purposes but many online residents use them to rearrange or replace religious

practice as designers and users collaborate in the production of a new spiritual marketplace Using World of Warcraft and Second Life as case studies this book shows that many residents now use virtual worlds to re imagine their traditions and work to restore them to authentic sanctity or else replace religious institutions with virtual communities that provide meaning and purpose to human life For some online residents virtual worlds are even keys to a post human future where technology can help us transcend mortal life Geraci argues that World of Warcraft and Second Life are virtually sacred because they do religious work They often do such work without regard for and frequently in conflict with traditional religious institutions and practices ultimately they participate in our sacred landscape as outsiders competitors and collaborators *Game Informer Magazine* ,2007 [GameAxis Unwired](#) ,2008-12 GameAxis Unwired is a magazine dedicated to bring you the latest news previews reviews and events around the world and close to you Every month rain or shine our team of dedicated editors and hardcore gamers put themselves in the line of fire to bring you news previews and other things you will want to know *Zhongnan Taoist* Xiao CongHua,2020-09-21 My mother is dead My grave will be opened six months later I was born in her grave I am a ghost I was born with a yin constitution and was destined to be a Taoist my whole life Otherwise I would definitely not live past the age of thirteen Don t ask me if there are any ghosts in this world If you want to see a ghost burn the paper write down the name of the dead soul in your blood and I ll have it come straight to you **Disciple of the Lich: Or How I Was Cursed by the Gods and Dropped Into the Abyss! (Light Novel) Vol. 1** Necoco,Yoh Hihara,2021-09-02 When Kanbara Kanata is whisked away from his mundane life to a world of adventure he inadvertently offends the all powerful being who brought him there As punishment he is sent to the bottom of the most dangerous dungeon without a single special power or ability He is sure that he s a goner until he meets a lich girl named Luna re an undead powerhouse who hates humans but grudgingly decides to assist him all the same With Luna re s help Kanata may just grow into someone truly incredible *The Virtual Future* William Sims Bainbridge,2011-09-06 The newest communication technologies are profoundly changing the world s politics economies and cultures but the specific implications of online game worlds remain mysterious The Virtual Future employs theories and methods from social science to explore nine very different virtual futures The Matrix Online Tabula Rasa Anarchy Online Entropia Universe Star Trek Online EVE Online Star Wars Galaxies World of Warcraft Burning Crusade and The Chronicles of Riddick Each presents a different picture of how technology and society could evolve in coming centuries but one theme runs through all of them the attempt to escape the Earth and seek new destinies among the stars Four decades after the last trip to the moon a new conception of spaceflight is emerging Rather than rockets shooting humans across vast physical distances to sterile rocks that lack the resources to sustain life perhaps robot space probes and orbiting telescopes will glean information about the universe that humans can then experience inside computer generated environments much closer to home All nine of these fantastically rich multiplayer masterpieces have shown myriads of people that really radical alternatives to contemporary

society could exist and has served as a laboratory for examining the consequences Each is a prototype of new social forms a utopian subculture and a simulation of technologies that have yet to be invented They draw upon several different traditions of science fiction and academic philosophy and they were created in several nations By comparing these nine role playing fantasies we can better consider what kind of world we want to inhabit in the real future
