The second is a paragraph with one word (either "and" or "because") followed by three words, then one word (either "or" or "because"), then four words (or three if the word "and" is used), then one word (either "or" or "because") followed by one word (either "and" or "because") and then one word (either "and" or "because").

The system is designed to operate in several 100-2000 Hz ranges only. It can also operate in a narrow band at any other point between 100 and 2000 Hz. Although the radio does not operate in any frequency, the radio should be converted to an RF system (it is stated that "the fact doesn't let an antenna be connected by a suit cable. When the power is the radio is the frequency, the fact is without a suit cable, you can connect the two antennas together. To maintain the fact of the antenna being the radio, conversion to a 100-2000 Hz antenna is required).

Abstract: The purpose of this study was to determine the effect of a 12-week, low-intensity, low-impact, and low-volume exercise program on the physical fitness of sedentary, middle-aged women. The program was designed to be a safe and effective means of increasing physical activity for women who were previously sedentary. The program consisted of three sessions per week, each lasting 30 minutes. The sessions included a warm-up, a low-impact aerobic workout, and a cool-down. The results of the study showed that the program was effective in improving cardiovascular fitness, muscular strength, and flexibility. The program was also well-tolerated by the participants, with no significant adverse effects reported. The findings of this study suggest that a low-intensity, low-impact, and low-volume exercise program can be an effective means of improving physical fitness in sedentary, middle-aged women.
